

This preliminary prospectus supplement and the accompanying prospectus relate to an effective registration statement under the Securities Act of 1933, but the information in this prospectus supplement is not complete and may be changed. This prospectus supplement and the accompanying prospectus are not an offer to sell these securities and they are not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

**Preliminary Prospectus Supplement
(to Prospectus dated February 15, 2019)**

(Subject to Completion, Dated March 7, 2019)

The Alkaline Water Company Inc.

<> Shares Common Stock

We are offering <> shares of our common stock pursuant to this prospectus supplement and the accompanying prospectus.

Our common stock is listed for trading on the Nasdaq Capital Market and the TSX Venture Exchange under the symbol "WTER". On March 6, 2019, the last reported sales prices of our common stock on the Nasdaq Capital Market and the TSX Venture Exchange were \$3.36 per share and CDN\$4.50 per share, respectively.

Investing in our securities involves significant risks. Please read the information contained in or incorporated by reference under the heading "Risk Factors" beginning on page S-8 of this prospectus supplement, and under similar headings in other documents filed after the date hereof and incorporated by reference into this prospectus supplement and the accompanying prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

About This Prospectus

This document is part of the registration statement that we filed with the Securities and Exchange Commission, or the SEC, using a "shelf" registration process and consists of two parts. The first part is this prospectus supplement, which describes the specific terms of this offering. The second part, the accompanying prospectus, gives more general information, some of which may not apply to this offering. Generally, when we refer only to the "prospectus," we are referring to both parts combined. This prospectus supplement may add to, update or change information in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement or the accompanying prospectus. If information in this prospectus supplement is inconsistent with the accompanying prospectus or with any document incorporated by reference that was filed with the SEC before the date of this prospectus supplement, you should rely on this prospectus supplement; provided that if any statement in one of these documents is inconsistent with a statement in another document having a later date - for example, a document incorporated by reference in this prospectus supplement - the statement in the document having the later date modifies or supersedes the earlier statement. This prospectus supplement, the accompanying prospectus and the documents incorporated into each by reference include important information about us, the securities being offered and other information you should know before investing in our securities. You should also read and consider information in the documents we have referred you to in the sections of this prospectus supplement entitled "Incorporation of Certain Information by Reference" and "Where You Can Find Additional Information."

You should rely only on this prospectus supplement, the accompanying prospectus, the documents incorporated or deemed to be incorporated by reference into this prospectus supplement or the accompanying prospectus. We have not authorized anyone to provide you with information that is in addition to or different from that contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. You should not assume that the information contained in this prospectus supplement or the accompanying prospectus, or incorporated by reference herein, is accurate as of any date other than as of the date of this prospectus supplement or the accompanying prospectus, as the case may be, or in the case of the documents incorporated by reference, the date of such documents regardless of the time of delivery of this prospectus supplement and the accompanying prospectus or any sale of our securities. Our business, financial condition, liquidity, results of operations and prospects may have changed since those dates.

We are offering to sell shares of our common stock only in jurisdictions where offers and sales are permitted. The distribution of this prospectus supplement and the accompanying prospectus and the offering of shares of our common stock in certain jurisdictions may be restricted by law. Persons outside the United States who come into possession of this prospectus supplement and the accompanying prospectus must inform themselves about, and observe any restrictions relating to, the offering of shares of our common stock and the distribution of this prospectus supplement and the accompanying prospectus outside the United States. This prospectus supplement and the accompanying prospectus do not constitute, and may not be used in connection with, an offer to sell, or a solicitation of an offer to buy, any securities offered by this prospectus supplement and the accompanying prospectus by any person in any jurisdiction in which it is unlawful for such person to make such an offer or solicitation.

Unless we otherwise indicate or unless the context requires otherwise, all references in this prospectus supplement to:

- the terms "we", "us", "our", "Company" and "Alkaline" refer to The Alkaline Water Company Inc., a Nevada corporation, and its wholly-owned subsidiaries, Alkaline 88, LLC (formerly Alkaline 84, LLC) and A88 Infused Beverage Division, Inc., unless otherwise specified; and
 - all reference to "dollars", "\$", "USD" or "US\$" are to U.S. dollars and all reference to "CDN\$" are to Canadian dollars.
-

Summary

This summary highlights selected information contained elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary does not contain all the information that you should consider before investing in our securities. You should read the entire prospectus supplement and the accompanying prospectus carefully, including "Risk Factors" contained in this prospectus supplement and the information and documents incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

Our Business

Overview

We offer retail consumers bottled alkaline water in 500-milliliter, 700-milliliter, 1-liter, 1.5 -liter, 3-liter and 1-gallon sizes under the trade name Alkaline88[®]. Our product is produced through an electrolysis process that uses specialized electronic cells coated with a variety of rare earth minerals to produce our 8.8 pH drinking water without the use of any manmade chemicals. Our product also incorporates 84 trace minerals from Himalayan pink rock salt. Our product is designed to have a clean smooth taste using only purified water and the Himalayan pink rock salt. We believe consumers drink our water because of the taste profile and the preconceived health benefits (although we do not market our products as having any potential health benefits), as well as because of our brand and trademark, which we believe is one of the most easily identifiable in the category. Measured by sales volume in 2018, we believe we are now one of the largest alkaline water companies in the United States.

Our product is presently available in all 50 states and the District of Columbia, although over 50% of our current sales are concentrated in the Southwest and Texas. We distribute our product through several channels. We sell through large national distributors, including UNFI, KeHE, C&S, and Core-Mark. We also sell our product to retail clients, including convenience stores, natural food products stores, large ethnic markets and national retailers. Examples of our retail clients include Walmart, Food Lion, Albertson's, Safeway, Kroger, Schnucks, Smart & Final, Jewel-Osco, Sprouts, Bashas', Stater Bros. Markets, Unified Grocers, Bristol Farms, Vallarta, Superior Foods, Ingles, HEB and Brookshire's. The majority of our sales to retail clients are through brokers and distributors, however, sales to our larger retail clients are often direct to the client's own warehouse distribution network.

Our operating subsidiary operates primarily as a marketing, distribution, and manufacturing company. It has entered into co-packing agreements with eight different bottling companies located in Virginia, Georgia, California, Texas, Nevada and Arizona to act as co-packers for our product. Our current capacity at all plants exceeds approximately \$8.3 million per month wholesale.

Archpoint Group, a business and marketing consulting firm and sales broker, has been engaged to assist our company in all aspects of our marketing, trade promotion and brand development. Their expertise in all aspects of consumer goods brand development, marketing and promotional programs is expected to help us meet the growing consumer demand for both our flagship Alkaline88[®] product and our upcoming A88 Infused product line. Water Source One, a producer of private labeled bottled water, has been engaged to assist in the manufacturing, procurement and logistical aspects of our business. Their specialized water production capabilities companies is expected to allow us to support the growing demand for our products. We believe this arrangement will enable us to further scale production and distribution as the Alkaline88[®] brand continues to gain market share. E.A. Berg, a sales and merchandising broker, has been engaged to implement a unique "Van Program" (where sales representatives sell products directly from vans to the retailers) throughout Texas and California which is intended to bring both our flagship Alkaline88[®] products and, once launched, A88 Infused's products to over 13,000 independently owned convenience stores in those markets. We expect to be able to expand the program to an additional nine US markets over the next few years. Our component materials are readily available through multiple vendors. Our principal suppliers are Vav Plastics Inc., Amcor Inc. and Packaging Corporation of America. The electrolysis process through which our product is produced is proprietary to us and, while the process is not patented, we seek to protect the process through the maintenance of trade secrets and know-how.

A88 Infused Beverage Division, Inc.

In August 2018, we formed A88 Infused Beverage Division, Inc., or A88 Infused, a Nevada corporation and a wholly owned subsidiary of our company. A88 Infused's focus is brand extension and product innovations in the wellness water category. We formed A88 Infused to meet what we believe is increasing consumer demand for enhanced and functional (value-added) beverages. We expect A88 Infused to capitalize on this and potential consumer demand with the development and launch of new products focused on growing trends in the beverage space.

To prepare for the launch of products by A88 Infused, we have expanded our packaging capabilities. We announced in January, 2019 that Nevada-based Western Group Packing has agreed to produce A88 Infused's flavored Alkaline88[®] water products and its planned hemp extract-infused water product at its 150,000+ square feet facility located in North Las Vegas, NV. We have received verbal confirmation from many of our current retail clients of their interest in purchasing our flavored Alkaline88[®] waters. The production of A88 Infused's planned hemp extract product is contingent on U.S. Food and Drug Administration, or the FDA, and state laws, regulations, and guidance. While the Agriculture Improvement Act of 2018 removed hemp from Schedule I of the Controlled Substances Act, the law did not change FDA's authorities with respect to food or drugs. As of March <>, 2019, the FDA has not made a determination that the use of hemp extract in food is safe. FDA has evaluated Generally Recognized as Safe (GRAS) notices for three hemp seed-derived food ingredients and determined that the agency has no questions that those ingredients are GRAS under their intended conditions of use.

In early February 2019, at the Convenience EPPS trade show in Chicago, Illinois, we sampled and offered up for sale "Alkaline88[®] Flavored," which is available in five different, all natural, sugar-free flavors. We believe "Alkaline88[®] Flavored" is the first flavored bottled alkaline water to be sold in the United States.

A88 Infused is also developing and preparing for the initial launch of its planned hemp extract product, which will be marketed under the trademark *Soothe*[™]. In the event FDA issues appropriate regulations or guidance or determines that it has no questions that hemp extract is GRAS under intended conditions of use that would permit A88 Infused to market hemp extract in water without food additive approval, we expect to produce and sell *Soothe*[™] as both a sparkling water in cans and as still water in bottles. We may also decide to market *Soothe*[™] if a supplier meets and complies with FDA's GRAS regulations with respect to a self-certification regarding the safety and GRAS status of the use of hemp extract. We expect to produce *Soothe*[™] as a low calorie or no calorie, hemp extract-infused water in five flavors. We may change the composition of our planned hemp-extract-infused product as necessary to comply with federal, state or local laws, regulations or guidance.

We intend to comply in full with all federal, state, and local laws, rules and regulations as we develop our hemp extract alkaline water and other product lines. We will not pursue the production or sale of hemp extract-infused products until legally permitted.

Plan of Operations

In order for us to implement our business plan over the next 12 months, we have identified the following milestones that we expect to achieve:

- Expansion of Broker Network - We expect to continue to develop our working relationship with our national broker network. We continually meet, train, and go on sales call with our national broker network in order to take advantage of the momentum currently being created by their efforts. We anticipate a considerable amount of travel and ongoing expenses at an estimated cost during that time of \$300,000.
 - Increase Manufacturing Capacity - (i) Flagship Alkaline88 product: we expect to add one to two new co-packer facilities, strategically located to reduce freight costs and meet current volumes and future growth objectives; and (ii) A88 Infused: we expect to add three to five new co-packer facilities strategically located to meet anticipated volumes by product type and future growth objectives.
-

- Expand Retail Distribution - We continue to expand our retail presence. The cost of this retail expansion over the next 12 months is expected to be up to \$1,000,000.
- Addition of Support Staff - In order to support expansion efforts and to continue the training and support of our broker network, we anticipate that we will need to hire approximately four more people on the corporate level for the specific purpose of supporting the broker, distributor and retailers and their logistical and accounting requirements. We continue to seek and interview candidates to fill our growing need for additional staffing. The additional cost of these new hires is expected to be approximately \$450,000 in salary and benefits over the next 12 months.
- Capital Considerations - Our business plan can be adjusted based on the available capital to the business. We anticipate that approximately \$1,000,000 is necessary in the near term in order to build out a national presence for our product and to allow for the purchase of the necessary equipment and facilities over the next 12 months. To fund our expansion in the longer term, we anticipate that we need at least \$4,000,000 during the next 12 months.
- International Expansion - We expect to begin selling internationally, including Canada, over the next 12 months and have budgeted \$160,000 towards our initial efforts.

The milestones set forth above, including the estimates with respect to expenses and capital needs, and the assumptions upon which they are based, reflect our current judgment and belief regarding the direction of our business. Actual events, expenditures and results will almost always vary, sometimes materially, from any estimates, predictions, projections or assumptions suggested herein.

We believe that cash flow from operations will not meet our present and near-term cash needs, including those relating to our engagements of Archpoint Group, Water Source One and E.A. Berg, and our cash needs for the above milestones over the next 12 months and thus we will require additional cash resources, including from the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. If our own financial resources and future cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

We have not yet established an ongoing source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. As of December 31, 2018, we had an accumulated deficit of \$35,858,604. Our ability to continue as a going concern is dependent on our company obtaining adequate capital to fund operating losses until we become profitable. If we are unable to obtain adequate capital, we could be forced to significantly curtail or cease operations. In its report on our financial statements for the year ended March 31, 2018, our independent registered public accounting firm included an explanatory paragraph regarding substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The principal offices of our company are located at 14646 N. Kierland Blvd., Suite 255, Scottsdale, AZ 85254. Our telephone number is (480) 656-2423. Our corporate website address is www.thealkalinewaterco.com. The information contained on, or that may be accessed through, our corporate website is not part of, and is not incorporated into, this prospectus supplement or the accompanying prospectus.

The Offering

Common stock we are offering	<> shares (or <> shares if the underwriters exercise in full their option to purchase additional shares).
Underwriters' option to purchase additional shares	<> shares. This option is exercisable, in whole or in part, for a period of 30 days from the date of this prospectus supplement.
Common stock to be outstanding after this offering	<> shares (or <>, if the underwriters exercise their option in full to purchase additional shares).
Symbol and Listing	Our common stock is listed for trading on The Nasdaq Capital Market and the TSX Venture Exchange under the symbol "WTER".
Use of Proceeds	We estimate that the net proceeds from this offering, after payment of estimated offering expenses payable by us and underwriting discounts and commissions, will be approximately \$<> million. We intend to use the net proceeds from this offering for general corporate purposes, which may include reducing any outstanding indebtedness, increasing our working capital or capital expenditures. Pending such use, we may temporarily invest the proceeds. See "Use of Proceeds."
Risk Factors	Investing in our securities involves significant risks. Please read the information contained in or incorporated by reference under the heading "Risk Factors" beginning on page S-8 of this prospectus supplement, and under similar headings in other documents filed after the date hereof and incorporated by reference into this prospectus supplement and the accompanying prospectus.

The number of shares of common stock shown above to be outstanding after this offering is based on 34,656,829 shares of our common stock outstanding as of the date of this prospectus supplement and excludes as of that date:

- 2,272,900 shares of our common stock issuable upon exercise of outstanding stock options;
 - 6,902,785 shares of our common stock issuable upon exercise of outstanding warrants;
 - 1,500,000 shares of our common stock issuable upon conversion of shares of our Series C Preferred Stock; and
 - 3,800,000 shares of our common stock issuable upon conversion of shares of our Series D Preferred Stock.
-

Risk Factors

An investment in our common stock involves a number of very significant risks. You should carefully consider the following risks and uncertainties in addition to other information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus in evaluating our company and our business before making an investment decision about our company. Our business, operating results and financial condition could be seriously harmed as a result of the occurrence of any of the following risks. You could lose all or part of your investment due to any of these risks.

Risks Related to This Offering

Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Our management will have broad discretion as to the use of the net proceeds from any offering by us and could use them for purposes other than those contemplated at the time of this offering. Accordingly, you will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that the proceeds will be invested in a way that does not yield a favorable, or any, return for our company.

You will experience immediate and substantial dilution as a result of this offering and may experience additional dilution in the future.

You will incur immediate and substantial dilution as a result of this offering. After giving effect to the sale by us of \diamond shares of our common stock at a public offering price of $\$ \diamond$ per share, excluding the exercise of the underwriters' option to purchase additional shares, and after deducting underwriting discounts, commissions and estimated offering expenses payable by us, investors in this offering can expect an immediate dilution of $\$ \diamond$ per share, or $\diamond \%$, at the public offering price. To the extent any warrants or options that we have issued, are exercised, or shares of our preferred stock that we have issued, is converted, you will sustain future dilution. We may also acquire other assets or businesses by issuing equity, which may result in additional dilution to our stockholders.

Risks Related to Our Business

Because we have a limited operating history, we may have difficulty realizing consistent and meaningful revenues and achieving profitability.

We were incorporated on June 6, 2011, and we only began producing and distributing alkaline bottled water in 2013. Since we have a limited operating history, our ability to successfully develop our products and to realize consistent and meaningful revenues and to achieve profitability has not been established and cannot be assured. For us to realize consistent, meaningful revenues and to achieve profitability, our products must receive broad market acceptance by consumers. Without this market acceptance, we will not be able to generate sufficient revenue to continue our business operation. If our products are not widely accepted by the market, our business may fail.

Our ability to achieve and maintain profitability and positive cash flow is dependent upon our ability to generate revenues, manage development costs and expenses, and compete successfully with our direct and indirect competitors. We anticipate operating losses in upcoming future periods. This will occur because there are expenses associated with the development, production, marketing, and sales of our products.

Our independent registered public accounting firm has expressed substantial doubt about our ability to continue as a going concern.

Our financial statements are prepared using generally accepted accounting principles in the United States applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. We have not yet established an ongoing source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. As of December 31, 2018, we had an accumulated deficit of \$35,858,604. Our ability to continue as a going concern is dependent on our company obtaining adequate capital to fund operating losses until we become profitable. If we are unable to obtain adequate capital, we could be forced to significantly curtail or cease operations.

In its report on our financial statements for the year ended March 31, 2018, our independent registered public accounting firm included an explanatory paragraph regarding substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We will need additional funds to continue producing, marketing, and distributing our products.

We will have to spend additional funds to continue producing, marketing and distributing our products. If we cannot raise sufficient capital, we may have to cease operations and you could lose your investment. We will need additional funds to continue to produce our products for distribution to our target market. We will have to continue to spend substantial funds on distribution, marketing and sales efforts before we will know if we have commercially viable and marketable/sellable products.

There is no guarantee that sufficient sale levels will be achieved.

There is no guarantee that the expenditure of money on distribution and marketing efforts will translate into sufficient sales to cover our expenses and result in profits. Consequently, there is a risk that you may lose all of your investment.

Our development, marketing, and sales activities are limited by our size.

Because we are small and do not have much capital, we must limit our product development, marketing, and sales activities. As such, we may not be able to complete our production and business development program in a manner that is as thorough as we would like. We may not ever generate sufficient revenues to cover our operating and expansion costs and you may, therefore, lose your entire investment.

Changes in the non-alcoholic beverage business environment and retail landscape could adversely impact our financial results.

The non-alcoholic beverage business environment is rapidly evolving as a result of, among other things, changes in consumer preferences, including changes based on health and nutrition considerations and obesity concerns; shifting consumer tastes and needs; changes in consumer lifestyles; and competitive product and pricing pressures. In addition, the non-alcoholic beverage retail landscape is very dynamic and constantly evolving, not only in emerging and developing markets, where modern trade is growing at a faster pace than traditional trade outlets, but also in developed markets, where discounters and value stores, as well as the volume of transactions through e-commerce, are growing at a rapid pace. If we are unable to successfully adapt to the rapidly changing environment and retail landscape, our share of sales, volume growth and overall financial results could be negatively affected.

Intense competition and increasing competition in the commercial beverage market could hurt our business.

The commercial retail beverage industry, and in particular its non-alcoholic beverage segment, is highly competitive. Market participants are of various sizes, with various market shares and geographical reach, some of whom have access to substantially more sources of capital.

We compete generally with all liquid refreshments, including bottled water and numerous specialty beverages, such as: CORE® Hydration, SOBE®, Snapple®, AriZona® Iced Tea, vitaminwater®, Gatorade Perform®, and POWERADE®.

We compete indirectly with major international beverage companies including but not limited to: The Coca-Cola Company®, PepsiCo, Inc., The Nestlé Group, Dr Pepper Snapple Group, Inc, Danone S.A., The Kraft Heinz Company, and Unilever PLC. These companies have established market presence in the United States and globally, and offer a variety of beverages that are competitors to our products. We face potential direct competition from such companies, because they have the financial resources, and access to manufacturing and distribution channels to rapidly enter the alkaline water market. We compete directly with other alkaline water producers and brands focused on the emerging alkaline beverage market including: Eternal Naturally Alkaline® Spring Water, Essentia®, CORE® Hydration, Icelandic Glacial™, Real Water®, AQUAhydrate®, Mount Valley Spring Water™, QURE Water®, Penta® Water, and Alka Power™. These companies could bolster their position in the alkaline water market through additional expenditure and promotion.

As a result of both direct and indirect competition, our ability to successfully distribute, market and sell our products, and to gain sufficient market share in the United States and around the world to realize profits may be limited, greatly diminished, or totally diminished, which may lead to partial or total loss of your investments in our company.

Alternative non-commercial beverages or processes could hurt our business.

The availability of non-commercial beverages, such as tap water, and machines capable of producing alkaline water at the consumer's home or at store-fronts could hurt our business, market share, and profitability.

Expansion of the alkaline beverage market or sufficiency of consumer demand in that market for operations to be profitable are not guaranteed.

The alkaline water market is an emerging market and there is no guarantee that this market will expand or that consumer demand will be sufficiently high enough to allow our company to successfully market, distribute and sell our products, or to successfully compete with current or future competition, all of which may result in total loss of your investment.

A failure to introduce new products or product extensions into new marketplaces successfully could prevent us from achieving long-term profitability.

We compete in an industry characterized by rapid changes in consumer preferences, so our ability to continue developing new products to satisfy our consumers' changing preferences will determine our long-term success. A failure to introduce new products or product extensions into new marketplaces successfully could prevent us from achieving long-term profitability. In addition, customer preferences are also affected by factors other than taste, such as the publicity. If we do not adjust to respond to these and other changes in customer preferences, our sales may be adversely affected. In addition, a failure to obtain any required regulatory approvals for our proposed products could have a material adverse effect on our business, operating results and financial condition.

Our growth and profitability depends on the performance of third-party brokers and distributors and on our ongoing relationships with them.

Our distribution network and its success depend on the performance of third parties. Any non-performance or deficient performance by such parties may undermine our operations, profitability, and result in total loss of your investment. To distribute our products, we use a broker-distributor-retailer network whereby brokers represent our products to distributors and retailers who will in turn sell our products to consumers. The success of this network will depend on the performance of the brokers, distributors and retailers within this network. There is a risk that a broker, distributor, or retailer may refuse to or cease to market or carry our products. There is a risk that the mentioned entities may not adequately perform their functions within the network by, without limitation, failing to distribute to sufficient retailers or positioning our products in localities that may not be receptive to our products. Furthermore, such third-parties' financial position or market share may deteriorate, which could adversely affect our distribution, marketing and sale activities. We also need to maintain good commercial relationships with third-party brokers, distributors and retailers so that they will promote and carry our products. Any adverse consequences resulting from the performance of third-parties or our relationship with them could undermine our operations, profitability and may result in total loss of your investment.

The loss of one or more of our major customers or a decline in demand from one or more of these customers could harm our business.

We have 2 major customers that together account for 46% (30% and 16%, respectively) of accounts receivable at December 31, 2018, and 2 customers that together account for 43% (24% and 19%, respectively) of the total revenues earned for the three months ended December 31, 2018. There can be no assurance that such customers will continue to order our products at the same level or at all. A reduction or delay in orders from such customers, including reductions or delays due to market, economic or competitive conditions, could have a material adverse effect on our business, operating results and financial condition.

Our dependence on a limited number of vendors leaves us vulnerable to having an inadequate supply of required products, price increases, late deliveries, and poor product quality.

We have three vendors that accounted for 59% (36%, 12% and 11%, respectively) of purchases for the three months ended December 31, 2018. Like other companies in our industry, we occasionally experience shortages and are unable to purchase our desired volume of products. Increasingly, our vendors are combining and merging together, leaving us with fewer alternative sources. If we are unable to maintain an adequate supply of products, our revenue and gross profit could suffer considerably. Finally, we cannot provide any assurance that our products will be available in quantities sufficient to meet customer demand. Any limits to product access could materially and adversely affect our business and results of operations.

Our business is sensitive to public perception. If any product proves to be harmful to consumers or if scientific studies provide unfavorable findings regarding their safety or effectiveness, then our image in the marketplace would be negatively impacted.

Our results of operations may be significantly affected by the public's perception of our company and similar companies. Our business could be adversely affected if any of our products or similar products distributed by other companies proves to be harmful to consumers or if scientific studies provide unfavorable findings regarding the safety or effectiveness of our products or any similar products. If our products suffer from negative consumer perception, it is likely to adversely affect our business and results of operations.

Consumers may have preconceptions about the health benefits of alkaline water; such health benefits are not guaranteed or proven.

Health benefits of alkaline water are not guaranteed and have not been proven. Although we do not market our products as having any potential health benefits, there is a consumer perception that drinking alkaline water has beneficial health effects. Consequently, negative changes in consumers' perception of the benefits of alkaline water or negative publicity surrounding alkaline water may result in loss of market share or potential market share and hence, loss of your investment. We are also prohibited from touting unconfirmed health benefits in our advertising and promotional activities for the products, both directly and indirectly through claims made by third-party endorsers when those endorsers have a material connection to our company.

Water scarcity and poor quality could negatively impact our production costs and capacity.

Water is the main ingredient in our products. It is also a limited resource, facing unprecedented challenges from overexploitation, increasing pollution, poor management, and climate change. As demand for water continues to increase, as water becomes scarcer, and as the quality of available water deteriorates, we may incur increasing production costs or face capacity constraints that could adversely affect our profitability or net operating revenues in the long run.

Increase in the cost, disruption of supply or shortage of ingredients, other raw materials or packaging materials could harm our business.

We and our bottlers will use water, 84 trace minerals from Himalayan salts and packaging materials for bottles such as plastic and paper products. The prices for these ingredients, other raw materials and packaging materials fluctuate depending on market conditions. Substantial increases in the prices of our or our bottlers' ingredients, other raw materials and packaging materials, to the extent they cannot be recouped through increases in the prices of finished beverage products, could increase our operating costs and could reduce our profitability. Increases in the prices of our finished products resulting from a higher cost of ingredients, other raw materials and packaging materials could affect the affordability of our products and reduce sales.

An increase in the cost, a sustained interruption in the supply, or a shortage of some of these ingredients, other raw materials, or packaging materials and containers that may be caused by a deterioration of our or our bottlers' relationships with suppliers; by supplier quality and reliability issues; or by events such as natural disasters, power outages, labor strikes, political uncertainties or governmental instability, or the like, could negatively impact our net revenues and profits.

Unfavorable general economic conditions in the United States could negatively impact our financial performance.

Unfavorable general economic conditions, such as a recession or economic slowdown, in the United States could negatively affect the affordability of, and consumer demand for, our products in the United States. Under difficult economic conditions, consumers may seek to reduce discretionary spending by forgoing purchases of our products or by shifting away from our beverages to lower-priced products offered by other companies, including non-alkaline water. Consumers may also cease purchasing bottled water and consume tap water. Lower consumer demand for our products in the United States could reduce our profitability.

Adverse weather conditions could reduce the demand for our products.

The sales of our products are influenced to some extent by weather conditions in the markets in which we operate. Unusually cold or rainy weather during the summer months may have a temporary effect on the demand for our products and contribute to lower sales, which could have an adverse effect on our results of operations for such periods.

We rely on third parties to produce and bottle our products, which creates additional risk.

We do not own or operate bottling or co-packing facilities used for the production of the various water products in our portfolio. We rely on those third parties to ensure the quality, safety and integrity of our products. If the third parties that we engage to produce and bottle our products fail to meet our demands or are found by government agencies to be out of compliance with applicable regulatory requirements, our supplies of those products and our future profit margins could be adversely affected.

Product contamination or tampering or issues or concerns with respect to product quality, safety and integrity could adversely affect our business, reputation, financial condition or results of operations.

Product contamination or tampering, the failure to maintain high standards for product quality, safety and integrity, including with respect to raw materials and ingredients obtained from suppliers, or allegations (whether or not valid) of product quality issues, mislabeling, misbranding, spoilage, allergens, adulteration or contamination with respect to products in our portfolio may reduce demand for such products, and cause production and delivery disruptions or increase costs, each of which could adversely affect our business, reputation, financial condition or results of operations. If any of the products in our portfolio are mislabeled or become unfit for consumption or cause injury, illness or death, or if appropriate resources are not devoted to product quality and safety (particularly as we expand our portfolio into new categories) or to comply with changing food safety requirements, we could decide to, or be required to, recall products or withdraw from the marketplace and/or we may be subject to liability or government action, which could result in payment of damages or fines, cause certain products in our portfolio to be unavailable for a period of time, result in destruction of product inventory, or result in adverse publicity (whether or not valid), which could reduce consumer demand and brand equity. Moreover, even if allegations of product contamination or tampering or suggestions that our products were not fit for consumption are meritless, the negative publicity surrounding assertions against us or products in our portfolio or processes could adversely affect our reputation or brands. Our business could also be adversely affected if consumers lose confidence in product quality, safety and integrity generally, even if such loss of confidence is unrelated to products in our portfolio. Any of the foregoing could adversely affect our business, reputation, financial condition or results of operations. In addition, if we do not have adequate insurance, if we do not have enforceable indemnification from suppliers, bottlers, distributors or other third parties or if indemnification is not available, the liability relating to such product claims or disruption as a result of recall efforts could materially adversely affect our business, financial condition or results of operations.

Our products are considered premium beverages and are being sold at premium prices compared to our competitors' products; we cannot provide any assurances as to consumers' continued market acceptance of our current and future products.

We will compete directly with other alkaline water producers and brands focused on the emerging alkaline beverage market including Eternal, Essentia, Core, Icelandic, Real Water, Aqua Hydrate, Mountain Valley, Qure, Penta, and Alka Power. Products offered by our direct competitors are sold in various volumes and prices with prices ranging from approximately \$0.99 for a half-liter bottle to \$4.99 for a one-gallon bottle, and volumes ranging from half-liter bottles to one-gallon bottles. We currently offer our product in a one-gallon bottle for a suggested resale price or an SRP of \$4.99, three-liter bottle for an SRP of \$3.99, 1.5 liter at an SRP of \$2.49, 1 liter at an SRP of \$1.99, 700 milliliter single serving at an SRP of \$1.19, and a 500 milliliter at an SRP of \$0.99. Our competitors may introduce larger sizes and offer them at an SRP that is lower than our products. We can provide no assurances that consumers will continue to purchase our products or that they will not prefer to purchase a competitive product.

We are subject to periodic claims and litigation that could result in unexpected expenses and could ultimately be resolved against us.

From time to time, we are involved in litigation and other proceedings, including matters related to product liability claims, stockholder class action and derivative claims, commercial disputes and intellectual property, as well as trade, regulatory, employment, and other claims related to our business. Any of these proceedings could result in significant settlement amounts, damages, fines or other penalties, divert financial and management resources, and result in significant legal fees. An unfavorable outcome of any particular proceeding could exceed the limits of our insurance policies or the carriers may decline to fund such final settlements and/or judgments and could have an adverse impact on our business, financial condition, and results of operations. In addition, any proceeding could negatively impact our reputation among our guests and our brand/image.

For example, our company was named as a defendant in a lawsuit filed on April 6, 2017, by Douglas Horn. Mr. Horn sought damages arising out of the alleged breach of a written employment agreement between our company and Mr. Horn. Mr. Horn alleged that our company has failed to pay wages and to transfer stock allegedly owed to him under the terms of his employment agreement. Our company denied the allegations of the claims, and moved to dismiss pursuant to the terms of the employment agreement which require that all disputes be resolved by arbitration. In response, Mr. Horn filed a notice of dismissal of all claims in that court, without prejudice. On September 21, 2017, Mr. Horn filed a Demand for Arbitration with the American Arbitration Association, asserting the same claims. Our company has responded, denying any liability to Mr. Horn and the matter is currently in the discovery phase. The arbitration has been set for a three day hearing on March 19 to 21, 2019. Our company intends to defend the claim vigorously.

We regularly evaluate potential expansion into international markets, and any expansion into such international operations could subject us to risks and expenses that could adversely impact our business, financial condition and results of operations.

To date, we have not undertaken substantial commercial activities outside of the United States. We have evaluated, and continue to evaluate, potential expansion into certain other international markets. If and when we seek to expand internationally in the future, our sales and operations would be subject to a variety of risks, including fluctuations in currency exchange rates, tariffs, import restrictions and other trade barriers, unexpected changes in legal and regulatory requirements, longer accounts receivable payment cycles, potentially adverse tax consequences, and difficulty in complying with foreign laws and regulations, as well as U.S. laws and regulations that govern foreign activities. Economic uncertainty in some of the geographic regions in which we might operate could result in the disruption of commerce and negatively impact our operations in those areas. Also, if we choose to pursue international expansion efforts, it may be necessary or desirable to contract with third parties, and we may not be able to enter into such agreements on commercially acceptable terms or at all. Further, such arrangements may not perform to our expectations, and we may be exposed to various risks as a result of the activities of our partners.

We rely on key executive officers who have extensive knowledge of our business and the industry in which we operate; the loss of any of these key executive officers would be difficult to replace and may adversely affect our business.

We are highly dependent on two executive officers, Richard A. Wright and David A. Guarino, who have extensive knowledge of our business and the industry in which we operate. We do not have "key person" life insurance policies for either of these officers. The loss of Richard A. Wright and/or David A. Guarino could result in delays in product development, loss of any future customers and sales and diversion of management resources, which could adversely affect our operating results.

If we are unable to protect our information systems against service interruption, misappropriation of data or breaches of security, our operations could be disrupted, we may suffer financial losses and our reputation may be damaged.

We rely on networks and information systems and other technology ("**information systems**"), including the Internet and third-party hosted services, to support a variety of business processes and activities, including procurement and supply chain, manufacturing, distribution, invoicing and collection of payments, employee processes and consumer marketing. We use information systems to process financial information and results of operations for internal reporting purposes and to comply with regulatory financial reporting and legal and tax requirements. In addition, we depend on information systems for digital marketing activities and electronic communications between our company and our bottlers and other customers, suppliers and consumers. Because information systems are critical to many of our operating activities, our business may be impacted by system shutdowns, service disruptions or security breaches. These incidents may be caused by failures during routine operations such as system upgrades or by user errors, as well as network or hardware failures, malicious or disruptive software, unintentional or malicious actions of employees or contractors, cyberattacks by common hackers, criminal groups or nation-state organizations or social-activist (hactivist) organizations, geopolitical events, natural disasters, failures or impairments of telecommunications networks, or other catastrophic events. In addition, such incidents could result in unauthorized or accidental disclosure of material confidential information or regulated individual personal data. If our information systems suffer severe damage, disruption or shutdown and our business continuity plans do not effectively resolve the issues in a timely manner, we could experience delays in reporting our financial results, and we may lose revenue and profits as a result of our inability to timely manufacture, distribute, invoice and collect payments for concentrate or finished products. Unauthorized or accidental access to, or destruction, loss, alteration, disclosure, falsification or unavailability of, information could result in violations of data privacy laws and regulations, damage to the reputation and credibility of our company and, therefore, could have a negative impact on net operating revenues. In addition, we may suffer financial and reputational damage because of lost or misappropriated confidential information belonging to us, our current or former employees, our bottling partners, other customers or suppliers, or consumers or other data subjects, and may become exposed to legal action and increased regulatory oversight. We could also be required to spend significant financial and other resources to remedy the damage caused by a security breach or to repair or replace networks and information systems.

In addition, third-party providers of data hosting or cloud services, as well as our bottling partners, distributors, retailers or suppliers, may experience cybersecurity incidents that may involve data we share with them. Although we have taken steps to prevent cybersecurity incidents, there can be no assurance that such steps will be adequate. In order to address risks to our information systems, we continue to make investments in personnel, technologies and training of our personnel.

Risks Related to Regulations Applicable to our Industry

Changes in laws and regulations relating to beverage containers and packaging could increase our costs and reduce our net operating revenues or profitability.

We and our bottlers offer our products in non-refillable, recyclable containers in the United States. Regulations have been enacted in various jurisdictions in the United States requiring that deposits or certain ecotaxes or fees be charged for the sale, marketing and use of certain non-refillable beverage containers. Other proposals relating to beverage container deposits, recycling, ecotax and/or product stewardship have been introduced in various jurisdictions in the United States and overseas, and we anticipate that similar legislation or regulations may be proposed in the future at local, state and federal levels in the United States. Consumers' increased concerns and changing attitudes about solid waste streams and environmental responsibility and the related publicity could result in the adoption of such legislation or regulations. Current regulations or the adoption of future regulations in the geographical regions in which we currently operate or intend to operate could adversely affect our costs or require changes in our distribution model, which could reduce our net operating revenues or profitability.

Significant additional labeling or warning requirements or limitations on the availability of our products may inhibit sales of affected products.

Various jurisdictions may seek to adopt significant additional product labeling or warning requirements or limitations on the availability of our products relating to the content or perceived adverse health consequences of our products. Federal laws may preempt some or all of these attempts by state or localities to impose additional labeling or warning requirements. If these types of requirements become applicable to our products under current or future environmental or health laws or regulations, they may inhibit sales of our products. Moreover, if we fail to meet compliance deadlines for any such new requirements, our products may be deemed misbranded or mislabeled and could be subject to enforcement action, or we could be exposed to private lawsuits alleging misleading labels or product promotion.

Changes in, or failure to comply with, the laws and regulations applicable to our products or our business operations could increase our costs or reduce our net operating revenues.

The advertising, distribution, labeling, production, safety, sale, and transportation in the United States of our currently marketed products are subject to: the Federal Food, Drug, and Cosmetic Act; the Federal Trade Commission Act; the Lanham Act; state food and drug laws; state consumer protection laws; competition laws; federal, state, and local workplace health and safety laws, such as the Occupational Safety and Health Act; various federal, state and local environmental protection laws; and various other federal, state, and local statutes and regulations. Changes to such laws and regulations could increase our costs or reduce our net operating revenues.

In addition, failure to comply with environmental, health or safety requirements and other applicable laws or regulations could result in the assessment of damages, the imposition of penalties, suspension of production, changes to equipment or processes, or a cessation of operations at our or our bottlers' facilities, as well as damage to our image and reputation, all of which could harm our profitability.

If we fail to comply with personal data protection laws, we could be subject to adverse publicity, government enforcement actions and/or private litigation, which could negatively affect our business and operating results.

In the ordinary course of our business, we receive, process, transmit and store information relating to identifiable individuals ("**personal data**"), primarily employees and former employees. As a result, we are subject to various U.S. federal and state and foreign laws and regulations relating to personal data. These laws have been subject to frequent changes, and new legislation in this area may be enacted in other jurisdictions at any time. There is no assurance that our security controls over personal data, the training of employees and vendors on data privacy and data security, and the policies, procedures and practices we implemented or may implement in the future will prevent the improper disclosure of personal data. Improper disclosure of personal data in violation of applicable personal data protection laws could harm our reputation, cause loss of consumer confidence, subject us to government enforcement actions (including fines), or result in private litigation against us, which could result in loss of revenue, increased costs, liability for monetary damages, fines and/or criminal prosecution, all of which could negatively affect our business and operating results.

If we produce, market and/or sell beverages infused with hemp, as defined under the Agriculture Improvement Act of 2018, we will be subject to a myriad of different laws and regulations governing the use of hemp in food and beverages and if we are unable to comply with such laws in a cost-effective manner, our business could be adversely affected.

The production of a beverage infused with hemp, as "hemp" is defined in the Agriculture Improvement Act of 2018 (also known as the 2018 Farm Bill, Public Law 115-334), is contingent on U.S. Food and Drug Administration, or the FDA, and state laws, regulations, and guidance. While the Agriculture Improvement Act of 2018 removed hemp from Schedule I of the Controlled Substances Act, the law did not change FDA's authorities with respect to food or drugs. As of March 20, 2019, the FDA has not made a determination that the use of hemp in food is safe. FDA has evaluated Generally Recognized as Safe or GRAS notices for three hemp seed-derived food ingredients and determined that the agency has no questions that those ingredients are GRAS under their intended conditions of use. We intend to comply in full with all federal, state, and local laws, rules and regulations as we develop our hemp alkaline water and other product lines. We will not pursue the production or sale of hemp-infused products until legally permitted.

Laws and regulations governing the use of hemp in food and beverages in the United States are broad in scope; subject to evolving interpretations; and subject to enforcement by a myriad of regulatory agencies and law enforcement entities. Under the Agriculture Improvement Act of 2018, a state or Indian tribe that desires to have primary regulatory authority over the production of hemp in the state or territory of the Indian tribe must submit a plan to monitor and regulate hemp production to the Secretary of the United States Department of Agriculture or USDA. The Secretary must then approve the state or tribal plan after determining if the plan complies with the requirements set forth in the Agriculture Improvement Act of 2018. The Secretary may also audit the state or Indian tribe's compliance with the federally-approved plan. If the Secretary does not approve the state or Indian tribe's plan, then the production of hemp in that state or territory of that Indian tribe will be subject to a plan established by USDA. USDA has not yet established such a plan. We anticipate that many states will seek to have primary regulatory authority over the production of hemp. States that seek such authority may create new laws and regulations that permit the use of hemp in food and beverages.

Federal and state laws and regulations on hemp may address production, monitoring, manufacturing, distribution, and laboratory testing to ensure that the hemp has a delta-9 tetrahydrocannabinol concentration of not more than 0.3 percent on a dry weight basis. Federal laws and regulations may also address the transportation or shipment of hemp or hemp products, as the Agriculture Improvement Act of 2018 prohibits states and Indian tribes from prohibiting the transportation or shipment of hemp or hemp products produced in accordance with that law through the state or territory of the Indian tribe, as applicable. Because we rely on a nationwide broker-distributor-retailer network whereby brokers represent our products to distributors and retailers in turn sell our product to consumers in the fifty states and the District of Columbia, we may be subject to many different state-based regulatory regimens for hemp, all of which could require us to incur substantial costs associated with compliance requirements. In addition, violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our operations, as well as adverse publicity and potential harm to our reputation. We and our suppliers and vendors must take significant enterprise risk management steps to ensure that there is no commingling of hemp and marihuana, as "marihuana" is defined in the federal Controlled Substances Act. Marihuana remains subject to the Controlled Substances Act and related regulations.

Furthermore, if we decide to produce, market and sell beverages infused with hemp outside of the United States, we will be subject to applicable laws and regulations in those non-U.S. jurisdictions, which would require us to expend significant costs associated with compliance.

In addition, it is possible that additional regulations may be enacted in the future in the United States and globally that will be directly applicable to our proposed product offerings infused with hemp. We cannot predict the nature of any future laws, regulations, interpretations, or applications, nor can we determine what effect additional governmental regulations or administrative policies and procedures, when and if promulgated, could have on our business.

FDA's current position is that the sale of food and beverages that contain hemp-derived cannabidiol or CBD is prohibited under the Federal Food, Drug, and Cosmetic Act; therefore, if we decide to produce, market and/or sell beverages infused with hemp-derived cannabidiol, we may be subject to federal enforcement actions which could adversely affect our business and harm our reputation and brand.

FDA has jurisdiction over drugs and foods that contain CBD, including CBD derived from hemp. Under the Federal Food, Drug and Cosmetic Act or the FDCA, it is a prohibited act to introduce or deliver for introduction into interstate commerce any food (which the FDCA defines to include beverages) that is adulterated. The FDCA therefore prohibits the introduction or delivery for introduction of a food that contains CBD, because the FDCA deems a food to be adulterated if it bears or contains any food additive that is unsafe and CBD is presently an unsafe food additive under the FDCA and FDA regulations. The FDCA also states that it is a prohibited act to introduce or deliver for introduction into interstate commerce any food to which an FDA-approved drug has been added, unless certain exceptions are met. FDA has approved a drug in which CBD is an active ingredient, and the agency has stated that based on available evidence, none of the exceptions apply to CBD. One of the exceptions addresses whether the drug was marketed in food before the FDA approved the drug and before the institution of any substantial clinical investigations involving the drug. FDA has stated that interested parties may present the agency with evidence that has bearing on the issue of whether CBD was marketed in food before the FDA approved the CBD drug in 2018 or before the institution of substantial clinical investigations involving the CBD drug. FDA's current position is that this provision of the FDCA also prohibits the introduction or delivery for introduction into interstate commerce of a food to which CBD has been added.

Congress may decide to amend the FDCA to permit the use of hemp-derived CBD in food. FDA may also decide to issue regulations or guidance that address the use of hemp-derived CBD in food or use its enforcement discretion with respect to hemp-derived CBD products. On February 27, 2019, the FDA Commissioner stated that the agency is interested in hearing from Congress and stakeholders with respect to a regulatory framework for CBD products. Any legislative or regulatory action could take years to implement or finalize and may not include provisions that would enable our company to produce, market and/or sell hemp beverages that contain hemp-derived CBD. We risk becoming subject to adverse publicity and costly federal enforcement actions should we decide to produce, market and/or sell beverages infused with hemp-derived CBD in the United States. We may be required to expend significant resources in defending our company from such actions which could adversely affect our business and results of operations and divert the attention of management. We may also incur the risk of sustaining considerable damage to our reputation and brand should we become party to federal enforcement actions resulting from the production, marketing or sale of hemp-derived CBD infused beverages.

Accordingly, if Congress amended federal laws or FDA issued regulations or guidance permitting the use of hemp-derived CBD in food or announcing the agency's decision to use its enforcement discretion with respect to hemp-derived CBD products, we and our suppliers and vendors would be required to implement significant enterprise risk management measures to ensure that there is no commingling of CBD derived from marijuana, as "marihuana" is defined in the federal Controlled Substances Act, with any future commercial supply of hemp-derived CBD that is used to produce our products.

The FDA could force the removal of our products from the U.S. market.

The FDA has broad authority over the regulation of our products. The FDA could, among other things, force us to remove our products from the U.S. market, levy fines or change their regulations on advertising. Any adverse action by the FDA could have a material adverse impact on our business.

Government reviews, inquiries, investigations, and actions could harm our business or reputation.

As our product portfolio evolves, the regulatory environment with regard to our business is also evolving. Government officials often exercise broad discretion in deciding how to interpret and apply applicable laws or regulations. We may in the future receive formal and informal inquiries from various governmental regulatory authorities, as well as self-regulatory organizations or consumer protection watchdog groups, about our business and compliance with local laws, regulations, or standards. Any determination that our products, operations or activities, or the activities of our employees, contractors or agents, are not in compliance with existing laws, regulations or standards, could adversely affect our business in a number of ways. Even if such an inquiry does not result in the imposition of fines, interruptions to our business, loss of suppliers or other third-party relationships, terminations of necessary licenses and permits, or similar direct results, the existence of the inquiry alone could potentially create negative publicity that could harm our business and/or reputation.

Risks Related to Our Intellectual Property***It is difficult and costly to protect our intellectual property.***

Our commercial success will depend in part on obtaining and maintaining trademark protection and trade secret/know-how protection of our products and brands, as well as successfully defending that intellectual property against third-party challenges. We will only be able to protect our intellectual property related to our trademarks and brands to the extent that we have rights under valid and enforceable trademarks, know-how or trade secrets that cover our products and brands. Changes in either the trademark laws or in interpretations of trademark and laws in the U.S. and other countries may diminish the value of our intellectual property. Accordingly, we cannot predict the breadth of claims that may be allowed or enforced in our issued trademarks. The degree of future protection for our proprietary rights is uncertain because legal means afford only limited protection and may not adequately protect our rights or permit us to gain or keep our competitive advantage.

We may face intellectual property infringement claims that could be time-consuming and costly to defend, and could result in our loss of significant rights and the assessment of treble damages.

From time to time we may face intellectual property claims from third parties. Some of these claims may lead to litigation. The outcome of any such litigation can never be guaranteed, and an adverse outcome could affect us negatively. For example, were a third party to succeed on an infringement claim against us, we may be required to pay substantial damages (including up to treble damages if such infringement were found to be willful). In addition, we could face an injunction, barring us from conducting the allegedly infringing activity. The outcome of the litigation could require us to enter into a license agreement which may not be under acceptable, commercially reasonable, or practical terms or we may be precluded from obtaining a license at all. It is also possible that an adverse finding of infringement against us may require us to dedicate substantial resources and time in developing non-infringing alternatives, which may or may not be possible.

Finally, we may initiate claims to assert or defend our own intellectual property against third parties. Any intellectual property litigation, irrespective of whether we are the plaintiff or the defendant, and regardless of the outcome, is expensive and time-consuming, and could divert our management's attention from our business and negatively affect our operating results or financial condition.

We may be subject to claims by third parties asserting that our employees or our company has misappropriated their intellectual property, or claiming ownership of what we regard as our own intellectual property.

Although we try to ensure that our company, our employees, and independent contractors (suppliers/vendors/distributors) do not use the proprietary information or know-how of others in their work for us, we may be subject to claims that our company, our employees, or independent contractors (suppliers/vendors/distributors) have used or disclosed intellectual property in violation of others' rights. These claims may cover a range of matters, such as challenges to our trademarks, as well as claims that our employees or independent contractors are using trade secrets or other proprietary information of any such employee's former employer or independent contractors. As a result, we may be forced to bring claims against third parties, or defend claims they may bring against us, to determine the ownership of what we regard as our intellectual property. If we fail in prosecuting or defending any such claims, in addition to paying monetary damages, we may lose valuable intellectual property rights or personnel. Even if we are successful in prosecuting or defending against such claims, litigation could result in substantial costs and be a distraction to management.

Risks Related to Our Stock

Because we can issue additional shares of common stock, our stockholders may experience dilution in the future.

We are authorized to issue up to 200,000,000 shares of common stock and 100,000,000 shares of preferred stock, of which 34,670,179 shares of common stock are issued and outstanding, 1,500,000 shares of Series C Preferred Stock are issued and outstanding, and 3,800,000 shares of Series D Preferred Stock are issued and outstanding as of March 31, 2019. Our board of directors has the authority to cause us to issue additional shares of common stock and preferred stock, and to determine the rights, preferences and privileges of shares of our preferred stock, without consent of our stockholders. Consequently, the stockholders may experience more dilution in their ownership of our stock in the future.

Trading on the Nasdaq Capital Market or TSX Venture Exchange may be volatile, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.

Our common stock is listed on the Nasdaq Capital Market and the TSX Venture Exchange. Trading of our common stock may experience wide fluctuations in trading prices, due to many factors that may have little to do with our operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance.

A prolonged and substantial decline in the price of our common stock could affect our ability to raise further working capital, thereby adversely impacting our ability to continue operations.

A prolonged and substantial decline in the price of our common stock could result in a reduction in the liquidity of our common stock and a reduction in our ability to raise capital. Because we plan to acquire a significant portion of the funds we need in order to conduct our planned operations through the sale of equity securities, a decline in the price of our common stock could be detrimental to our liquidity and our operations because the decline may cause investors not to choose to invest in our stock. If we are unable to raise the funds we require for all our planned operations and to meet our existing and future financial obligations, we may be forced to reallocate funds from other planned uses and may suffer a significant negative effect on our business plan and operations, including our ability to develop new products and continue our current operations. As a result, our business may suffer, and we may go out of business.

Because we do not intend to pay any cash dividends on our shares of common stock in the near future, our stockholders will not be able to receive a return on their shares unless they sell them.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our common stock in the near future. The declaration, payment and amount of any future dividends will be made at the discretion of our board of directors, and will depend upon, among other things, the results of operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and if dividends are paid, there is no assurance with respect to the amount of any such dividend. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them.

Forward-Looking Statements

This prospectus supplement, the accompanying prospectus and the information and documents incorporated by reference into this prospectus supplement contain or will contain forward-looking statements which relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential" or "continue" or the negative of these terms or other comparable terminology. Forward-looking statements are based on material factors and assumptions made by our company in light of management's experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we believe are appropriate in the circumstances, including but not limited to, general economic conditions, product pricing levels and competitive intensity, supply constraints, the timing and success of new product introductions, our expectations regarding our business, strategy, opportunities and prospects, including our ability to implement meaningful changes to address business challenges, and our expectations regarding the cash flow from operations. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", uncertainties and other factors, that may cause our company's or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. We caution you not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Except as required by applicable law, including the securities laws of the United States and Canada, we disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Use of Proceeds

We estimate that the proceeds from this offering, after deducting estimated offering expenses payable by us and underwriting discounts and commissions, will be approximately \$<> million (or \$<> million if the underwriters' option to purchase additional shares is exercised in full). We intend to use the net proceeds from this offering for general corporate purposes, which may include reducing any outstanding indebtedness, increasing our working capital or capital expenditures. Pending such use, we may temporarily invest the proceeds. We have not determined the amounts we plan to spend on the areas listed above or the timing of these expenditures. As a result, our management will have broad discretion to allocate the net proceeds from this offering.

Dilution

If you invest in the shares of our common stock in this offering, your interest will be diluted immediately to the extent of the difference between the public offering price per share of our common stock and the pro forma net tangible book value per share of our common stock after this offering. As of December 31, 2018, our net tangible book value was \$ \diamond , or less than \$ \diamond per share of our common stock. Our net tangible book value per share is equal to total assets less intangible assets and total liabilities, divided by the number of shares of our outstanding common stock.

Net tangible book value dilution per share represents the difference between the amount per share of common stock paid by the new investors who purchase shares of our common stock in this offering and the pro forma net tangible book value per share in our common stock immediately after completion of this offering. After giving effect to our sale of \diamond shares of our common stock at a public offering price of \$ \diamond per share, excluding the exercise of the underwriters' option to purchase additional shares, and after deducting underwriting discounts, commissions and estimated offering expenses payable by us, our pro forma net tangible book value as of December 31, 2018 would have been \$ \diamond , or \$ \diamond per share. This represents an immediate increase of net tangible book value of \$ \diamond per share to our existing stockholders and an immediate dilution in net tangible book value of \$ \diamond per share to purchasers of shares of our common stock in this offering. The following table illustrates this per share dilution:

Public offering price per share	\$	\diamond
Net tangible book value per share as of December 31, 2018	\$	(\diamond)
Increase in net tangible book value per share attributable to this offering	\$	\diamond
Pro forma net tangible book value per share after this offering	\$	\diamond
Dilution per share to investors in this offering	\$	\diamond

The above calculation is based on 34,093,011 shares of our common stock outstanding as of December 31, 2018 and excludes as of that date:

- 2,272,900 shares of our common stock issuable upon exercise of stock options outstanding as of December 31, 2018, at a weighted average exercise price of \$0.84 per share;
- 6,902,785 shares of our common stock issuable upon exercise of warrants outstanding as of December 31, 2018, at a weighted average exercise price of \$1.02 per share;
- 1,500,000 shares of our common stock issuable upon conversion of shares of our Series C Preferred Stock as of December 31, 2018 and
- 3,800,000 shares of our common stock issuable upon conversion of shares of our Series D Preferred Stock as of December 31, 2018.

In addition, the amounts in the table above assume no exercise by the underwriters of their option to purchase additional shares. If the underwriters exercise their option to purchase shares of our common stock in full, the pro forma net tangible book value per share after this offering would be approximately \$ \diamond per share, representing an increase in net tangible book value per share attributable to this offering of approximately \$ \diamond and dilution in net tangible book value per share to investors in this offering of approximately \$ \diamond .

The above illustration of per share dilution to investors participating in this offering assumes no exercise of outstanding options or warrants to purchase shares of our common stock and no conversion of our preferred stock. The exercise of outstanding options and warrants having an exercise price less than the offering price or the conversion of preferred stock for no additional consideration will increase dilution to new investors. In addition, we may choose to raise additional capital depending on market conditions, our capital requirements and strategic considerations, even if we believe we have sufficient funds for our current or future operating plans. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

Underwriting

We are offering the shares of common stock described in this prospectus supplement through underwriters. Subject to the terms and conditions set forth in the underwriting agreement between us and Canaccord Genuity LLC, as representative of the underwriters, we have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase from us, at the public offering price of \$<> per share less the underwriting discount of \$<> per share, the number of shares of common stock listed next to its name in the following table:

Name	Number of shares
Canaccord Genuity LLC	
Total	

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the underwriting agreement if any of these shares are purchased, other than the shares covered by the option described below unless and until this option is exercised.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933 and to contribute to payments the underwriters may be required to make for certain liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The underwriters have advised us that they propose to offer the shares of common stock directly to the public at the public offering price set forth on the cover page of this prospectus supplement, and to dealers at the public offering price less a selling concession not in excess of \$<> per share. The underwriters also may allow, and dealers may reallow, a concession not in excess of \$<> per share to brokers and dealers. After the public offering of the shares, the underwriters may change the offering price and other selling terms.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting fee is \$<> per share. The following table shows the per share and total underwriting discounts to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	Per Share	Total	
		Without Exercise of Option to Purchase Additional Shares	With Exercise of Option to Purchase Additional Shares
Public offering price	\$	\$	\$
Underwriting discounts and commissions paid by us			
Net Proceeds, before expenses, to us			

The expenses of the offering payable by us in connection with the offering, other than the underwriting discounts and commissions and the expense reimbursement referred to below, are estimated to be approximately \$<>. We are responsible for all of our expenses related to the offering, whether or not it is completed.

In addition to the underwriting discounts and commissions to be paid by us, we have agreed to reimburse the underwriters for (i) up to \$200,000 of certain of their expenses incurred in connection with the offering, and (ii) the fees and disbursements of counsel to the underwriters in connection with the review by, and clearance of the offering with, FINRA of the terms of the sale of the shares of common stock in an amount not to exceed \$15,000. In accordance with FINRA Rule 5110, these reimbursed amounts are deemed underwriting compensation for this offering.

Option to Purchase Additional Shares

We have granted an option to the underwriters to purchase up to an aggregate of <> additional shares of our common stock at the public offering price less the underwriting discount. If any shares are purchased with this option to purchase additional shares, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered

Lock-Up Agreements

We have agreed that during a period of 90 days from the date of this prospectus supplement, we will not, subject to certain exceptions and without the prior written consent of Canaccord Genuity LLC, (i) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or any securities convertible into or exercisable or exchangeable for shares of our common stock or file any registration statement under the Securities Act of 1933 with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of shares of our common stock, whether any such swap or transaction described in clause (i) or (ii) above is to be settled by delivery of shares of common stock or such other securities, in cash or otherwise, subject to certain exceptions.

All of our executive officers and directors have agreed that they will not, without the prior written consent of Canaccord Genuity LLC, offer, sell, contract to sell, pledge or otherwise transfer or dispose of (or enter into any transaction which is designed to, or might reasonably be expected to, result in the disposition of (whether by actual disposition or effective economic disposition due to cash settlement or otherwise) by them or any of their affiliates or any person in privity with them or any of their affiliates), directly or indirectly, including the filing (or participation in the filing) of a registration statement with the SEC in respect of, or establish or increase a put equivalent position or liquidate or decrease a call equivalent position within the meaning of Section 16 of the Securities Exchange Act of 1934, and the rules and regulations of the SEC promulgated thereunder with respect to, any shares of our common stock or any securities convertible into, or exercisable or exchangeable for our common stock, or publicly announce an intention to effect any such transaction, for a period from the date of this prospectus supplement until, and including the date that is, 90 days after the date of this prospectus supplement. Each of the lock-up agreements contains certain exceptions, including the establishment of a Rule 10b5-1 trading plan, provided that (i) such plan does not provide for the transfer of shares of common stock during the 90-day period and (ii) no public announcement or filing under the Securities Exchange Act of 1934 is required or voluntarily made regarding the establishment of such plan. This lock-up provision applies to shares of our common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. Certain of our executive offices and directors may enter into Rule 10b5-1 trading plans.

Canaccord Genuity LLC may, in its discretion, release any of the securities subject to these lock-up agreements at any time without notice.

Price Stabilization, Short Positions and Penalty Bids

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include over-allotment and stabilizing transactions, passive market making and purchases to cover syndicate short positions created in connection with the offering. Until distribution of the shares of our common stock is completed, SEC rules may limit the underwriters from bidding for and purchasing shares of our common stock. However, the underwriters may engage in transactions that stabilize the price of the shares of our common stock, such as bids or purchases to peg, fix or maintain that price. A "stabilizing transaction" is a bid for or the purchase of common stock on behalf of an underwriter in the open market for the purpose of fixing or maintaining the price of the shares of common stock. Stabilizing transactions may cause the price of shares of our common stock to be higher than the price that might otherwise prevail in the open market.

If an underwriter creates a short position in our common stock in connection with the offering (i.e., if it sells more shares of our common stock than are listed on the cover page of this prospectus supplement), the underwriter may reduce that short position by purchasing shares of our common stock in the open market. A "covering transaction" is the bid for or purchase of common stock on behalf of an underwriter to reduce a short position incurred by the underwriter in connection with the offering. The underwriters may also elect to reduce any short position by exercising all or part of the option to purchase additional shares described above. A short position is more likely to be created if an underwriter is concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase shares in this offering. Similar to other purchase transactions, an underwriter's purchases to cover the short sales may have the effect of raising or maintaining the market price of our shares or preventing or retarding a decline in the market price of our shares. As a result, the price of our shares may be higher than the price that might otherwise prevail in the open market.

An underwriter also may impose a penalty bid, whereby the underwriter may reclaim selling concessions allowed to syndicate members or other broker-dealers in respect of the common stock sold in the offering for their account if the underwriter repurchases the shares in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the common stock, which may be higher than the price that might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the shares of our common stock in that it discourages resales of those shares of our common stock.

In connection with the offering, the underwriters may also engage in passive market making transactions in our common stock on The Nasdaq Capital Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our common stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

The underwriters have advised us that these transactions may be effected on The Nasdaq Capital Market or otherwise. Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of shares of our common stock. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

This prospectus supplement and the accompanying prospectus may be made available in electronic format on websites or through other online services maintained by the underwriters of the offering, or by their affiliates. Other than this prospectus supplement and the accompanying prospectus in electronic format, the information on such websites and any information contained in any other website maintained by the underwriters or any of their affiliates is not part of this prospectus supplement, the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus form a part, has not been approved or endorsed by us or the underwriters in their capacities as underwriters and should not be relied upon by investors.

Disclaimers About Non-U.S. Jurisdictions

United Kingdom

The underwriters:

- have only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of Financial Services and Markets Act 2000 (as amended) ("FSMA")) to persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to us; and have complied with and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the securities in, from or otherwise involving the United Kingdom.
-

Switzerland

The securities will not be offered, directly or indirectly, to the public in Switzerland and this prospectus does not constitute a public offering prospectus as that term is understood pursuant to article 652a or 1156 of the Swiss Federal Code of Obligations.

European Economic Area

In relation to each Member State of the European Economic Area (the "EEA") which has implemented the Prospectus Directive (each, a "Relevant Member State"), an offer of our shares may not be made to the public in a Relevant Member State other than:

- to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant dealer or dealers nominated by us for any such offer, or;
- in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of our shares shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this description, the expression an "offer of our shares to the public" in relation to any of our shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe for the shares, as the expression may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that member state, and the expression "Prospectus Directive" means European Union Directive 2003/71/EC (as amended by Directive 2010/73/EU and includes any relevant implementing measure in each Relevant Member State.

Neither this prospectus supplement nor the accompanying prospectus is a prospectus for the purposes of the Prospectus Directive. This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of our shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. We have not authorized and do not authorize the making of any offer of securities through any financial intermediary on our behalf, other than offers made by the underwriters and their respective affiliates, with a view to the final placement of the securities as contemplated in this document. Accordingly, no purchaser of the shares, other than the underwriters, is authorized to make any further offer of shares on our behalf or on behalf of the underwriters.

Relationship with The Alkaline Water Company Inc.

In the ordinary course of business, the underwriters and their affiliates have provided, and in the future may provide, various investment banking, financial advisory and other services to us for which they have received, and may receive, customary compensation. In the course of their business, the underwriters and their affiliates may actively trade our securities for their own account or for the accounts of customers, and, accordingly the underwriters and their affiliates may at any time hold long or short positions in such securities.

Listing

Our common stock is listed on The Nasdaq Capital Market and the TSX Venture Exchange under the symbol "WTER."

Transfer Agent

The transfer agent and registrar for our common stock is Island Stock Transfer, located at 15500 Roosevelt Boulevard, Suite 301, Clearwater, Florida 33760. The co-transfer agent for our common stock is TSX Trust Company, located at 650 West Georgia Street, Suite 2700, Vancouver, British Columbia V6B 4N9, Canada.

Legal Matters

The validity of the shares of our common stock offered hereby will be passed upon for us by Clark Wilson LLP, Vancouver, British Columbia. Mintz, Levin, Cohn, Ferris, Glovsky, and Popeo P.C., Boston, Massachusetts, acted as U.S. counsel for the underwriters and Stikeman Elliott LLP, Toronto, Ontario, acted as Canadian counsel for the underwriters.

Experts

Our consolidated financial statements for the years ended March 31, 2018 and 2017 have been incorporated by reference in this prospectus supplement from our annual report on Form 10-K for the year ended March 31, 2018 filed with the SEC on June 29, 2018 in reliance on the report of AMC Auditing, LLC, an independent registered public accounting firm, which has also been incorporated by reference in this prospectus supplement, given on the authority of said firm as experts in auditing and accounting.

Interest of Named Experts and Counsel

No expert named in the registration statement of which this prospectus supplement forms a part as having prepared or certified any part thereof (or is named as having prepared or certified a report or valuation for use in connection with such registration statement) or counsel named in this prospectus supplement as having given an opinion upon the validity of the securities being offered pursuant to this prospectus supplement or upon other legal matters in connection with the registration or offering such securities was employed for such purpose on a contingency basis. Also at the time of such preparation, certification or opinion or at any time thereafter, through the date of effectiveness of such registration statement or that part of such registration statement to which such preparation, certification or opinion relates, no such person had, or is to receive, in connection with the offering, a substantial interest, direct or indirect, in our company or any of its parents or subsidiaries. Nor was any such person connected with our company or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer or employee.

Incorporation of Certain Information by Reference

The following documents filed by our company with the SEC are incorporated into this prospectus supplement by reference:

1. our annual report on Form 10-K filed on June 29, 2018;
2. our quarterly reports on Form 10-Q filed on August 14, 2018, November 13, 2018 and February 14, 2019;
3. our current reports on Form 8-K filed on April 25, 2018, May 31, 2018, June 20, 2018, September 20, 2018, October 3, 2018, October 15, 2018, November 21, 2018, January 29, 2019 and March 1, 2019 (except, with respect to each of the foregoing, for the portions of such reports which were deemed to be furnished and not filed); and
4. the description of our common stock contained in our Form 8-A filed on December 4, 2018, which refers to the description of our securities contained in the post-effective amendment no. 2 to our registration statement on Form S-1 (File No. 333-209124) filed on November 24, 2017, including any amendments or reports filed for the purpose of updating such description.

In addition to the foregoing, we incorporate by reference into this prospectus supplement all documents that we file with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 (other than any documents or information furnished and not filed with the SEC) after the date of this prospectus supplement and before the termination or completion of this offering and such documents will become a part of this prospectus supplement from the date that such documents are filed with the SEC. Information in such future filings updates and supplements the information provided in this prospectus supplement, the accompanying prospectus supplement and the information and documents incorporated by reference into this prospectus supplement. Any statements in any such future filings will automatically be deemed to modify and supersede any information that is part of this prospectus supplement to the extent that statements in the later filed document modify or supersede such earlier statements.

We will provide to each person, including any beneficial owner, to whom this prospectus supplement is delivered, at no cost, upon written or oral request, a copy of any or all of the information that has been incorporated by reference in this prospectus supplement but not delivered with this prospectus supplement. Requests for documents should be directed to The Alkaline Water Company Inc., 14646 N. Kierland Blvd., Suite 255, Scottsdale, Arizona 85254, Attention: President, telephone number (480) 656-2423. Exhibits to these filings will not be sent unless those exhibits have been specifically incorporated by reference in such filings.

Where You Can Find More Information

We file annual, quarterly and current reports, proxy statements and other information with the SEC. Such filings are available to the public over the internet at the SEC's website at <http://www.sec.gov>.

We have filed with the SEC a registration statement on Form S-3 (File No. 333-229428) under the Securities Act of 1933 with respect to the securities offered under this prospectus supplement and the accompanying prospectus. This prospectus supplement and the accompanying prospectus, which form part of that registration statement, do not contain all information included in the registration statement. Certain information is omitted and you should refer to the registration statement and its exhibits.

The Alkaline Water Company Inc.

\$50,000,000

Common Stock
Preferred Stock
Debt Securities
Warrants
Subscription Receipts
Units

We may offer and sell, from time to time, our common stock, preferred stock, debt securities, warrants to purchase debt or equity securities, subscription receipts for debt or equity securities or units of such securities at prices and on terms that will be determined at the time of any such offering. We may offer and sell any of such securities or any combination of such securities in one or more offerings up to a total dollar amount of \$50,000,000.

This prospectus provides you with a general description of the securities that we may offer. Each time we offer our securities under this prospectus, we will provide a prospectus supplement containing more specific information about the particular offering. The prospectus supplements may also add, update or change information contained in this prospectus. You should carefully read this prospectus and any accompanying prospectus supplement, together with the documents we incorporate by reference, before you invest in our securities. **This prospectus may not be used to offer or sell securities unless accompanied by a prospectus supplement.**

We may offer and sell these securities to or through one or more underwriters, dealers or agents, or directly to purchasers, on a delayed or continuous basis. The prospectus supplement for each offering will provide the specific terms of the plan of distribution for that offering. For more detailed information, see "Plan of Distribution" beginning on page 18 of this prospectus.

Our common stock is listed for trading on the Nasdaq Capital Market and the TSX Venture Exchange under the symbol "WTER". We have not yet determined whether any of the other securities that may be offered by this prospectus will be listed on any exchange or other public market. If we decide to seek a listing for any of those securities, that will be disclosed in a prospectus supplement.

Investing in our securities involves significant risks. See "Risk Factors" beginning on page 4.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is February 15, 2019.

About This Prospectus

This prospectus is a part of a registration statement that we filed with the United States Securities and Exchange Commission or SEC using a "shelf" registration process. Under this shelf registration process, we may, from time to time, offer and sell any of the securities or any combination of the securities described in this prospectus in one or more offerings up to a total dollar amount of \$50,000,000.

This prospectus provides you with a general description of the securities that we may offer. Each time we offer securities, we will provide a prospectus supplement containing specific information about the terms of that offering and the securities being offered. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the documents incorporated by reference into this prospectus under the heading "Incorporation of Certain Information by Reference" and the additional information described under the heading "Where You Can Find More Information".

Unless we otherwise indicate or unless the context requires otherwise, all references in this prospectus to:

- the terms "we", "us", "our", "Company" and "Alkaline" refer to The Alkaline Water Company Inc., a Nevada corporation, and its wholly-owned subsidiaries, Alkaline 88, LLC (formerly Alkaline 84, LLC) and A88 Infused Beverage Division, Inc., unless otherwise specified;
- the term "securities" means the common stock, preferred stock, debt securities, warrants, subscription receipts and units described in this prospectus; and
- all reference to "dollars", "\$", "USD" or "US\$" are to U.S. dollars and all reference to "CDN\$" are to Canadian dollars.

The information contained in this prospectus is not complete and may be changed. You should rely only on the information provided in or incorporated by reference in this prospectus or any prospectus supplement. We have not authorized any dealer, salesman or other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. We are not making an offer of any securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference, is accurate as of any date other than the date of the document in which such information is contained or such other date referred to in such document, regardless of the time of any sale or issuance of a security. Our business, financial condition, results of operations and prospects may have changed since those dates.

About The Alkaline Water Company Inc.

Our company offers retail consumers bottled alkaline water in 500-milliliter, 700-milliliter, 1-liter, 1.5-liter, 3-liter and 1-gallon sizes under the trade name Alkaline88®. Our product is produced through an electrolysis process that uses specialized electronic cells coated with a variety of rare earth minerals to produce our 8.8 pH drinking water without the use of any chemicals. Our product also incorporates 84 trace minerals from Himalayan salt. Our product is designed to have a clean smooth taste using only purified water and the Himalayan salt. Consumers drink our water because of the taste profile and the perceived health benefits. We are now one of the largest (by sales volume) alkaline water companies in the United States.

Our product is presently available in all 50 states and the District of Columbia at an estimated 47,500 retail locations, although over 50% of our current sales are concentrated in the Southwest and Texas. We distribute our product through several channels. We sell through large national distributors (UNFI, KeHe, C&S, and Core-Mark). We also sell our product directly to retail clients, including convenience stores, natural food products stores, large ethnic markets and national retailers. Some examples of retail clients are: Walmart, Food Lion, Albertson's, Safeway, Kroger, Schnucks, Smart& Final, Jewel-Osco, Sprouts, Bashas', Stater Bros. Markets, Unified Grocers, Bristol Farms, Vallarta, Superior Foods, Ingles, HEB and Brookshire's. Currently, we sell our product to our retailers through brokers and distributors. Our larger retail clients bring the water in through their own warehouse distribution network.

We have not yet established an ongoing source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. As of December 31, 2018, we had an accumulated deficit of \$35,858,604. Our ability to continue as a going concern is dependent on our company obtaining adequate capital to fund operating losses until we become profitable. If we are unable to obtain adequate capital, we could be forced to significantly curtail or cease operations. In its report on our financial statements for the year ended March 31, 2018, our independent registered public accounting firm included an explanatory paragraph regarding substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The principal offices of our company are located at 14646 N. Kierland Blvd., Suite 255, Scottsdale, AZ 85254. Our telephone number is (480) 656-2423. Our corporate website address is www.thealkalinewaterco.com. The information contained on, or that may be accessed through, our corporate website is not part of, and is not incorporated into, this prospectus.

Risk Factors

An investment in our common stock involves a number of very significant risks. You should carefully consider the following risks and uncertainties in addition to other information contained in or incorporated by reference in this prospectus in evaluating our company and our business before making an investment decision about our company. Our business, operating results and financial condition could be seriously harmed as a result of the occurrence of any of the following risks. You could lose all or part of your investment due to any of these risks.

Risks Related to Our Business

Because we have a limited operating history, our ability to fully and successfully develop our business is unknown.

We were incorporated in June 6, 2011, and we have only begun producing and distributing alkaline bottled water in 2013, and we have a limited operating history from which investors can evaluate our business. Our ability to successfully develop our products, and to realize consistent, meaningful revenues and profit has not been established and cannot be assured. For us to achieve success, our products must receive broad market acceptance by consumers. Without this market acceptance, we will not be able to generate sufficient revenue to continue our business operation. If our products are not widely accepted by the market, our business may fail.

Our ability to achieve and maintain profitability and positive cash flow is dependent upon our ability to generate revenues, manage development costs and expenses, and compete successfully with our direct and indirect competitors. We anticipate operating losses in upcoming future periods. This will occur because there are expenses associated with the development, production, marketing, and sales of our products.

Our independent registered public accounting firm has expressed substantial doubt about our ability to continue as a going concern.

Our financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. We have not yet established an ongoing source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. As of December 31, 2018, we had an accumulated deficit of \$35,858,604. Our ability to continue as a going concern is dependent on our company obtaining adequate capital to fund operating losses until we become profitable. If we are unable to obtain adequate capital, we could be forced to significantly curtail or cease operations.

In its report on our financial statements for the year ended March 31, 2018, our independent registered public accounting firm included an explanatory paragraph regarding substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We will need additional funds to produce, market, and distribute our products.

We will have to spend additional funds to produce, market and distribute our products. If we cannot raise sufficient capital, we may have to cease operations and you could lose your investment. We will need additional funds to produce our products for distribution to our target market. Even after we have produced our products, we will have to spend substantial funds on distribution, marketing and sales efforts before we will know if we have commercially viable and marketable/sellable products.

There is no guarantee that sufficient sale levels will be achieved.

There is no guarantee that the expenditure of money on distribution and marketing efforts will translate into sufficient sales to cover our expenses and result in profits. Consequently, there is a risk that you may lose all of your investment.

Our development, marketing, and sales activities are limited by our size.

Because we are small and do not have much capital, we must limit our product development, marketing, and sales activities. As such we may not be able to complete our production and business development program in a manner that is as thorough as we would like. We may not ever generate sufficient revenues to cover our operating and expansion costs and you may, therefore, lose your entire investment.

Changes in the non-alcoholic beverage business environment and retail landscape could adversely impact our financial results.

The non-alcoholic beverage business environment is rapidly evolving as a result of, among other things, changes in consumer preferences, including changes based on health and nutrition considerations and obesity concerns; shifting consumer tastes and needs; changes in consumer lifestyles; and competitive product and pricing pressures. In addition, the non-alcoholic beverage retail landscape is very dynamic and constantly evolving, not only in emerging and developing markets, where modern trade is growing at a faster pace than traditional trade outlets, but also in developed markets, where discounters and value stores, as well as the volume of transactions through e-commerce, are growing at a rapid pace. If we are unable to successfully adapt to the rapidly changing environment and retail landscape, our share of sales, volume growth and overall financial results could be negatively affected.

Intense competition and increasing competition in the commercial beverage market could hurt our business.

The commercial retail beverage industry, and in particular its non-alcoholic beverage segment, is highly competitive. Market participants are of various sizes, with various market shares and geographical reach, some of whom have access to substantially more sources of capital.

We compete generally with all liquid refreshments, including bottled water and numerous specialty beverages, such as: Core Hydration, SoBe; Snapple; Arizona Ice Tea; Vitamin Water; Gatorade; and Powerade.

We compete indirectly with major international beverage companies including but not limited to: the Coca-Cola Company; PepsiCo, Inc.; Nestlé; Dr Pepper Snapple Group; Groupe Danone; Kraft Foods Group, Inc.; and Unilever. These companies have established market presence in the United States, and offer a variety of beverages that are substitutes to our products. We face potential direct competition from such companies, because they have the financial resources, and access to manufacturing and distribution channels to rapidly enter the alkaline water market. We compete directly with other alkaline water producers and brands focused on the emerging alkaline beverage market including: Eternal; Essentia; Core, Icelandic; Real Water; Aqua Hydrate; Mountain Valley; Qure; Penta; and Alka Power. These companies could bolster their position in the alkaline water market through additional expenditure and promotion.

As a result of both direct and indirect competition, our ability to successfully distribute, market and sell our products, and to gain sufficient market share in the United States to realize profits may be limited, greatly diminished, or totally diminished, which may lead to partial or total loss of your investments in our company.

Alternative non-commercial beverages or processes could hurt our business.

The availability of non-commercial beverages, such as tap water, and machines capable of producing alkaline water at the consumer's home or at store-fronts could hurt our business, market share, and profitability.

Expansion of the alkaline beverage market or sufficiency of consumer demand in that market for operations to be profitable are not guaranteed.

The alkaline water market is an emerging market and there is no guarantee that this market will expand or that consumer demand will be sufficiently high to allow our company to successfully market, distribute and sell our products, or to successfully compete with current or future competition, all of which may result in total loss of your investment.

A failure to introduce new products or product extensions into new marketplaces successfully could prevent us from achieving long-term profitability.

We compete in an industry characterized by rapid changes in consumer preferences, so our ability to continue developing new products to satisfy our consumers' changing preferences will determine our long-term success. A failure to introduce new products or product extensions into new marketplaces successfully could prevent us from achieving long-term profitability. In addition, customer preferences are also affected by factors other than taste, such as the publicity. If we do not adjust to respond to these and other changes in customer preferences, our sales may be adversely affected. In addition, a failure to obtain any required regulatory approvals for our proposed products could have a material adverse effect on our business, operating results and financial condition.

Our growth and profitability depends on the performance of third-parties and our relationship with them.

Our distribution network and its success depend on the performance of third parties. Any non-performance or deficient performance by such parties may undermine our operations, profitability, and result in total loss to your investment. To distribute our products, we use a broker-distributor-retailer network whereby brokers represent our products to distributors and retailers who will in turn sell our products to consumers. The success of this network will depend on the performance of the brokers, distributors and retailers of this network. There is a risk that a broker, distributor, or retailer may refuse to or cease to market or carry our products. There is a risk that the mentioned entities may not adequately perform their functions within the network by, without limitation, failing to distribute to sufficient retailers or positioning our products in localities that may not be receptive to our products. Furthermore, such third-parties' financial position or market share may deteriorate, which could adversely affect our distribution, marketing and sale activities. We also need to maintain good commercial relationships with third-party brokers, distributors and retailers so that they will promote and carry our products. Any adverse consequences resulting from the performance of third-parties or our relationship with them could undermine our operations, profitability and may result in total loss of your investment.

The loss of one or more of our major customers or a decline in demand from one or more of these customers could harm our business.

We have 2 major customers that together account for 46% (30% and 16%, respectively) of accounts receivable at December 31, 2018, and 2 customers that together account for 43% (24% and 19 %, respectively) of the total revenues earned for the three months ended December 31, 2018. There can be no assurance that such customers will continue to order our products in the same level or at all. A reduction or delay in orders from such customers, including reductions or delays due to market, economic or competitive conditions, could have a material adverse effect on our business, operating results and financial condition.

Our dependence on a limited number of vendors leaves us vulnerable to having an inadequate supply of required products, price increases, late deliveries, and poor product quality.

We have three vendors that accounted for 59% (36%, 12% and 11% respectively) of purchases for the three months ended December 31, 2018. Like other companies in our industry, we occasionally experience shortages and are unable to purchase our desired volume of products. Increasingly, our vendors are combining and merging together, leaving us with fewer alternative sources. If we are unable to maintain an adequate supply of products, our revenue and gross profit could suffer considerably. Finally, we cannot provide any assurance that our products will be available in quantities sufficient to meet customer demand. Any limits to product access could materially and adversely affect our business and results of operations.

Our business is sensitive to public perception. If any product proves to be harmful to consumers or if scientific studies provide unfavorable findings regarding their safety or effectiveness, then our image in the marketplace would be negatively impacted.

Our results of operations may be significantly affected by the public's perception of our company and similar companies. Our business could be adversely affected if any of our products or similar products distributed by other companies proves to be harmful to consumers or if scientific studies provide unfavorable findings regarding the safety or effectiveness of our products or any similar products. If our products suffer from negative consumer perception, it is likely to adversely affect our business and results of operations.

Health benefits of alkaline water is not guaranteed or proven, rather it is perceived by consumers.

Health benefits of alkaline water are not guaranteed and have not been proven. There is a consumer perception that drinking alkaline water has beneficial health effects. Consequently, negative changes in consumers' perception of the benefits of alkaline water or negative publicity surrounding alkaline water may result in loss of market share or potential market share and hence loss of your investment.

Water scarcity and poor quality could negatively impact our production costs and capacity.

Water is the main ingredient in our products. It is also a limited resource, facing unprecedented challenges from overexploitation, increasing pollution, poor management, and climate change. As demand for water continues to increase, as water becomes scarcer, and as the quality of available water deteriorates, we may incur increasing production costs or face capacity constraints that could adversely affect our profitability or net operating revenues in the long run.

Increase in the cost, disruption of supply or shortage of ingredients, other raw materials or packaging materials could harm our business.

We and our bottlers will use water, 84 trace minerals from Himalayan salts, packaging materials for bottles such as plastic and paper products. The prices for these ingredients, other raw materials and packaging materials fluctuate depending on market conditions. Substantial increases in the prices of our or our bottlers' ingredients, other raw materials and packaging materials, to the extent they cannot be recouped through increases in the prices of finished beverage products, would increase our operating costs and could reduce our profitability. Increases in the prices of our finished products resulting from a higher cost of ingredients, other raw materials and packaging materials could affect the affordability of our products and reduce sales.

An increase in the cost, a sustained interruption in the supply, or a shortage of some of these ingredients, other raw materials, or packaging materials and containers that may be caused by a deterioration of our or our bottlers' relationships with suppliers; by supplier quality and reliability issues; or by events such as natural disasters, power outages, labor strikes, political uncertainties or governmental instability, or the like, could negatively impact our net revenues and profits.

Changes in laws and regulations relating to beverage containers and packaging could increase our costs and reduce demand for our products.

We and our bottlers intend to offer our products in non-refillable, recyclable containers in the United States. Legal requirements have been enacted in various jurisdictions in the United States requiring that deposits or certain ecotaxes or fees be charged for the sale, marketing and use of certain non-refillable beverage containers. Other proposals relating to beverage container deposits, recycling, ecotax and/or product stewardship have been introduced in various jurisdictions in the United States and overseas, and we anticipate that similar legislation or regulations may be proposed in the future at local, state and federal levels in the United States. Consumers' increased concerns and changing attitudes about solid waste streams and environmental responsibility and the related publicity could result in the adoption of such legislation or regulations. If these types of requirements are adopted and implemented on a large scale in the geographical regions in which we operate or intend to operate, they could affect our costs or require changes in our distribution model, which could reduce our net operating revenues or profitability.

Significant additional labeling or warning requirements or limitations on the availability of our products may inhibit sales of affected products.

Various jurisdictions may seek to adopt significant additional product labeling or warning requirements or limitations on the availability of our products relating to the content or perceived adverse health consequences of our products. If these types of requirements become applicable to our products under current or future environmental or health laws or regulations, they may inhibit sales of our products.

Unfavorable general economic conditions in the United States could negatively impact our financial performance.

Unfavorable general economic conditions, such as a recession or economic slowdown, in the United States could negatively affect the affordability of, and consumer demand for, our products in the United States. Under difficult economic conditions, consumers may seek to reduce discretionary spending by forgoing purchases of our products or by shifting away from our beverages to lower-priced products offered by other companies, including non-alkaline water. Consumers may also cease purchasing bottled water and consume tap water. Lower consumer demand for our products in the United States could reduce our profitability.

Adverse weather conditions could reduce the demand for our products.

The sales of our products are influenced to some extent by weather conditions in the markets in which we operate. Unusually cold or rainy weather during the summer months may have a temporary effect on the demand for our products and contribute to lower sales, which could have an adverse effect on our results of operations for such periods.

Changes in, or failure to comply with, the laws and regulations applicable to our products or our business operations could increase our costs or reduce our net operating revenues.

The advertising, distribution, labeling, production, safety, sale, and transportation in the United States of our products will be subject to: the Federal Food, Drug, and Cosmetic Act; the Federal Trade Commission Act; the Lanham Act; state consumer protection laws; competition laws; federal, state, and local workplace health and safety laws, such as the Occupational Safety and Health Act; various federal, state and local environmental protection laws; and various other federal, state, and local statutes and regulations. Legal requirements also apply in many jurisdictions in the United States requiring that deposits or certain ecotaxes or fees be charged for the sale, marketing, and use of certain non-refillable beverage containers. The precise requirements imposed by these measures vary. Other types of statutes and regulations relating to beverage container deposits, recycling, ecotaxes and/or product stewardship also apply in various jurisdictions in the United States. We anticipate that additional, similar legal requirements may be proposed or enacted in the future at the local, state and federal levels in the United States. Changes to such laws and regulations could increase our costs or reduce our net operating revenues.

In addition, failure to comply with environmental, health or safety requirements and other applicable laws or regulations could result in the assessment of damages, the imposition of penalties, suspension of production, changes to equipment or processes, or a cessation of operations at our or our bottlers' facilities, as well as damage to our image and reputation, all of which could harm our profitability.

Our products are considered premium and healthy beverages and are being sold at premium prices compared to our competitors; we cannot provide any assurances as to consumers' continued market acceptance of our current and future products.

We will compete directly with other alkaline water producers and brands focused on the emerging alkaline beverage market including Eternal, Essentia, Core, Icelandic, Real Water, Aqua Hydrate, Mountain Valley, Qure, Penta, and Alka Power. Products offered by our direct competitors are sold in various volumes and prices with prices ranging from approximately \$0.99 for a half-liter bottle to \$4.99 for a one-gallon bottle, and volumes ranging from half-liter bottles to one-gallon bottles. We currently offer our product in a one-gallon bottle for an SRP of \$4.99, three-liter bottle for an SRP of \$3.99, 1.5 liter at an SRP of \$2.49, 1 liter at an SRP of \$1.99, 700 milliliter single serving at an SRP of \$1.19, and a 500 milliliter at an SRP of \$0.99. Our competitors may introduce larger sizes and offer them at an SRP that is lower than our products. We can provide no assurances that consumers will continue to purchase our products or that they will not prefer to purchase a competitive product.

If the water or flavors we sell became contaminated, our business could be seriously harmed.

We have adopted various quality, environmental, health and safety standards. However, our products may still not meet these standards or could otherwise become contaminated. A failure to meet these standards or contamination could occur in our operations or those of our bottlers, distributors or suppliers. Such a failure or contamination could result in expensive production interruptions, recalls and liability claims. Moreover, negative publicity could be generated even from false, unfounded or nominal liability claims or limited recalls. Any of these failures or occurrences could negatively affect our business and financial performance.

We are subject to periodic claims and litigation that could result in unexpected expenses and could ultimately be resolved against us.

From time to time, we are involved in litigation and other proceedings, including matters related to product liability claims, stockholder class action and derivative claims, commercial disputes and intellectual property, as well as trade, regulatory, employment, and other claims related to our business. Any of these proceedings could result in significant settlement amounts, damages, fines or other penalties, divert financial and management resources, and result in significant legal fees. An unfavorable outcome of any particular proceeding could exceed the limits of our insurance policies or the carriers may decline to fund such final settlements and/or judgments and could have an adverse impact on our business, financial condition, and results of operations. In addition, any proceeding could negatively impact our reputation among our guests and our brand image.

Our inability to protect our trademarks and trade secrets may prevent us from successfully marketing our products and competing effectively.

Failure to protect our intellectual property could harm our brand and our reputation, and adversely affect our ability to compete effectively. Further, enforcing or defending our intellectual property rights, including our trademarks, copyrights, licenses and trade secrets, could result in the expenditure of significant financial and managerial resources. We regard our intellectual property, particularly our trademarks to be of considerable value and importance to our business and our success. We rely on a combination of trademark laws, confidentiality procedures and contractual provisions to protect our intellectual property rights. There can be no assurance that the steps taken by us to protect these proprietary rights will be adequate or that third parties will not infringe or misappropriate our trademarks, trade secrets or similar proprietary rights. In addition, there can be no assurance that other parties will not assert infringement claims against us, and we may have to pursue litigation against other parties to assert our rights. Any such claim or litigation could be costly. In addition, any event that would jeopardize our proprietary rights or any claims of infringement by third parties could have a material adverse effect on our ability to market or sell our products.

We regularly evaluate potential expansion into international markets, and any expansion into such international operations could subject us to risks and expenses that could adversely impact our business, financial condition and results of operations.

To date, we have not undertaken substantial commercial activities outside of the United States. We have evaluated, and continue to evaluate, potential expansion into certain other international markets. If and when we seek to expand internationally in the future, our sales and operations would be subject to a variety of risks, including fluctuations in currency exchange rates, tariffs, import restrictions and other trade barriers, unexpected changes in legal and regulatory requirements, longer accounts receivable payment cycles, potentially adverse tax consequences, and difficulty in complying with foreign laws and regulations, as well as U.S. laws and regulations that govern foreign activities. Economic uncertainty in some of the geographic regions in which we might operate could result in the disruption of commerce and negatively impact our operations in those areas. Also, if we choose to pursue international expansion efforts, it may be necessary or desirable to contract with third parties, and we may not be able to enter into such agreements on commercially acceptable terms or at all. Further, such arrangements may not perform to our expectations, and we may be exposed to various risks as a result of the activities of our partners.

We rely on key executive officers, and their knowledge of our business would be difficult to replace.

We are highly dependent on our two executive officers, Richard A. Wright and David A. Guarino. We do not have "key person" life insurance policies for any of our officers. The loss of management and industry expertise of any of our key executive officers could result in delays in product development, loss of any future customers and sales and diversion of management resources, which could adversely affect our operating results.

Risk Related to Our Stock

Because we can issue additional shares of common stock, our stockholders may experience dilution in the future.

We are authorized to issue up to 200,000,000 shares of common stock and 100,000,000 shares of preferred stock, of which 34,656,829 shares of common stock are issued and outstanding, 1,500,000 shares of Series C Preferred Stock are issued and outstanding, and 3,800,000 shares of Series D Preferred Stock are issued and outstanding as of February 15, 2019. Our board of directors has the authority to cause us to issue additional shares of common stock and preferred stock, and to determine the rights, preferences and privileges of shares of our preferred stock, without consent of our stockholders. Consequently, the stockholders may experience more dilution in their ownership of our stock in the future.

Trading on the Nasdaq Capital Market or TSX Venture Exchange may be volatile, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.

Our common stock is listed on the Nasdaq Capital Market and the TSX Venture Exchange. Trading of our common stock may experience wide fluctuations in trading prices, due to many factors that may have little to do with our operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance.

A decline in the price of our common stock could affect our ability to raise further working capital, it may adversely impact our ability to continue operations and we may go out of business.

A prolonged decline in the price of our common stock could result in a reduction in the liquidity of our common stock and a reduction in our ability to raise capital. Because we plan to acquire a significant portion of the funds we need in order to conduct our planned operations through the sale of equity securities, a decline in the price of our common stock could be detrimental to our liquidity and our operations because the decline may cause investors not to choose to invest in our stock. If we are unable to raise the funds we require for all our planned operations, we may be forced to reallocate funds from other planned uses and may suffer a significant negative effect on our business plan and operations, including our ability to develop new products and continue our current operations. As a result, our business may suffer, and not be successful and we may go out of business. We also might not be able to meet our financial obligations if we cannot raise enough funds through the sale of our equity securities and we may be forced to go out of business.

Because we do not intend to pay any cash dividends on our shares of common stock in the near future, our stockholders will not be able to receive a return on their shares unless they sell them.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our common stock in the near future. The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and if dividends are paid, there is no assurance with respect to the amount of any such dividend. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them.

An adverse rating of our debt securities may cause their trading price to fall.

If a rating agency rates our debt securities, if any, it may assign them a low rating. Rating agencies also may lower ratings on our debt securities, if any, in the future. If rating agencies assign a lower-than-expected rating or reduce, or indicate that they may reduce, their ratings in the future, the trading price of our debt securities, if any, could significantly decline.

We cannot assure you that an active trading market will develop for the securities.

There is currently no public market for any of our securities other than our common stock. We do not know if an active market will develop for our other securities, or if developed, whether such a market will continue. If an active market is not developed or maintained, the market price and the liquidity of our other securities may be adversely affected.

Forward-Looking Statements

This prospectus, any prospectus supplement and the information and documents incorporated by reference into this prospectus contain or will contain forward-looking statements which relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential" or "continue" or the negative of these terms or other comparable terminology. Forward-looking statements are based on material factors and assumptions made by our company in light of management's experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we believe are appropriate in the circumstances, including but not limited to, general economic conditions, product pricing levels and competitive intensity, supply constraints, the timing and success of new product introductions, our expectations regarding our business, strategy, opportunities and prospects, including our ability to implement meaningful changes to address business challenges, and our expectations regarding the cash flow from operations. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", uncertainties and other factors, that may cause our company's or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. We caution you not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Except as required by applicable law, including the securities laws of the United States and Canada, we disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Use of Proceeds

Unless we specify otherwise in a prospectus supplement, we intend to use the net proceeds from sales of securities by us for general corporate purposes, which may include reducing any outstanding indebtedness, increasing our working capital or financing acquisitions and capital expenditures. Pending such use, we may temporarily invest the proceeds.

Description of Capital Stock

The aggregate number of shares that we have the authority to issue is 300,000,000, of which 200,000,000 shares are common stock, with a par value of \$0.001 per share, and 100,000,000 shares are preferred stock, with a par value of \$0.001 per share. 3,000,000 shares of our authorized preferred stock are designated as "Series C Preferred Stock" and have conversion rights. 5,000,000 shares of our authorized preferred stock are designated as "Series D Preferred Stock" and have conversion rights.

As of February 15, 2019, there were 34,656,829 shares of our common stock issued and outstanding, 1,500,000 shares of Series C Preferred Stock issued and outstanding and 3,800,000 shares of Series D Preferred Stock issued and outstanding.

Common Stock

Our common stock is entitled to one vote per share on all matters submitted to a vote of our stockholders, including the election of directors. Except as otherwise provided by law or as provided in any resolution adopted by our board of directors providing for the issuance of any series of preferred stock, the holders of our common stock possess all voting power. There is no cumulative voting in the election of directors. Stockholders holding at least 33 $\frac{1}{3}$ % of the stock issued and outstanding and entitled to vote thereat, present in person or represented by proxy, will constitute a quorum at all meetings of the stockholders for the transaction of business except as otherwise provided by statute or by the articles of incorporation. When a quorum is present or represented at any meeting, the vote of the stockholders of a majority of the stock having voting power present in person or represented by proxy will be sufficient to elect members of our board of directors or to decide any question brought before such meeting, unless the question is one upon which by express provision of statute or of the articles of incorporation, a different vote is required in which case such express provision will govern and control the decision of such question. Except as otherwise required by law, any action required to be taken at a meeting of our stockholders, or any other action which may be taken at a meeting of our stockholders, may be taken without a meeting, without prior notice and without a vote if written consents are signed by our stockholders representing a majority of the shares entitled to vote at such a meeting.

Our board of directors has the power to amend our bylaws. As a result, our board of directors can change the quorum and voting requirements at a meeting of our stockholders, subject to the applicable laws.

Subject to any preferential rights of any outstanding series of preferred stock created by our board of directors from time to time, the holders of our common stock are entitled to receive, when, as and if declared by our board of directors, out of funds legally available therefore, dividends payable in cash, stock or otherwise. Our board of directors is not obligated to declare a dividend. Any future dividends will be subject to the discretion of our board of directors and will depend upon, among other things, future earnings, the operating and financial condition of our company, its capital requirements, general business conditions and other pertinent factors. It is not anticipated that dividends will be paid in the foreseeable future.

Upon any liquidation of our company, and after holders of any outstanding series of preferred stock have been paid in full the amounts to which they respectively are entitled or a sum sufficient for such payment in full has been set aside, the remaining net assets of our company are to be distributed pro rata to the holders of our common stock, to the exclusion of holders of our preferred stock.

Our common stock is not convertible or redeemable and has no preemptive, subscription or conversion rights. There are no conversions, redemption, sinking fund or similar provisions regarding our common stock.

Preferred Stock

Our preferred stock may be divided into and issued in series. Our board of directors is authorized to divide the authorized shares of preferred stock into one or more series, each of which will be so designated as to distinguish the shares thereof from the shares of all other series and classes. Our board of directors is authorized to fix and determine the designations, rights, qualifications, preferences, limitations and terms of the shares of any series of preferred stock including but not limited to the following.

- The rate of dividend, the time of payment of dividends, whether dividends are cumulative, and the date from which any dividends will accrue;
- Whether shares may be redeemed, and, if so, the redemption price and the terms and conditions of redemption;
- The amount payable upon shares in the event of voluntary or involuntary liquidation;
- Sinking fund or other provisions, if any, for the redemption or purchase of shares;
- The terms and conditions on which shares may be converted, if the shares of any series are issued with the privilege of conversion;
- Voting powers, if any, provided that if any of the preferred stock or series thereof will have voting rights, such preferred stock or series will vote only on a share for share basis with the common stock on any matter, including but not limited to the election of directors, for which such preferred stock or series has such rights; and
- Subject to the foregoing, such other terms, qualifications, privileges, limitations, options, restrictions, and special or relative rights and preferences, if any, of shares or such series as our board of directors may, at the time so acting, lawfully fix and determine under the laws of the State of Nevada.

We must not declare, pay or set apart for payment any dividend or other distribution (unless payable solely in shares of common stock or other class of stock junior to the preferred stock as to dividends or upon liquidation) in respect of common stock, or other class of stock junior to the preferred stock, nor must we redeem, purchase or otherwise acquire for consideration shares of any of the foregoing, unless dividends, if any, payable to holders of preferred stock for the current period (and in the case of cumulative dividends, if any, payable to holders of preferred stock for the current period and in the case of cumulative dividends, if any, for all past periods) have been paid, are being paid or have been set aside for payment, in accordance with the terms of the preferred stock, as fixed by our board of directors.

In the event of the liquidation of our company, holders of preferred stock are entitled to receive, before any payment or distribution on the common stock or any other class of stock junior to the preferred stock upon liquidation, a distribution per share in the amount of the liquidation preference, if any, fixed or determined in accordance with the terms of such preferred stock plus, if so provided in such terms, an amount per share equal to accumulated and unpaid dividends in respect of such preferred stock (whether or not earned or declared) to the date of such distribution. Neither the sale, lease or exchange of all or substantially all of the property and assets of our company, nor any consolidation or merger of our company, will be deemed to be a liquidation for this purpose.

Series C Preferred Stock

3,000,000 shares of our authorized preferred stock are designated as "Series C Preferred Stock."

Series D Preferred Stock

5,000,000 shares of our authorized preferred stock are designated as "Series D Preferred Stock."

Anti-Takeover Provisions

Some features of the Nevada Revised Statutes, which are further described below, may have the effect of deterring third parties from making takeover bids for control of our company or may be used to hinder or delay a takeover bid. This would decrease the chance that our stockholders would realize a premium over market price for their shares of common stock as a result of a takeover bid.

Combination with Interested Stockholder

The Nevada Revised Statutes contain provisions governing combination of a Nevada corporation that has 200 or more stockholders of record with an interested stockholder. As of February 15, 2019, we had approximately 53 stockholders of record. Therefore, we believe that these provisions governing combination of a Nevada corporation do not apply to us and will not until such time as these requirements have been met. At such time as they may apply to us, these provisions may also have effect of delaying or making it more difficult to effect a change in control of our company.

A corporation affected by these provisions may not engage in a combination within three years after the interested stockholder acquires his, her or its shares unless the combination or purchase is approved by the board of directors before the interested stockholder acquired such shares. Generally, if approval is not obtained, then after the expiration of the three-year period, the business combination may be consummated with the approval of the board of directors before the person became an interested stockholder or a majority of the voting power held by disinterested stockholders, or if the consideration to be received per share by disinterested stockholders is at least equal to the highest of:

- the highest price per share paid by the interested stockholder within the three years immediately preceding the date of the announcement of the combination or within three years immediately before, or in, the transaction in which he, she or it became an interested stockholder, whichever is higher;
- the market value per share on the date of announcement of the combination or the date the person became an interested stockholder, whichever is higher; or
- if higher for the holders of preferred stock, the highest liquidation value of the preferred stock, if any.

Generally, these provisions define an interested stockholder as a person who is the beneficial owner, directly or indirectly of 10% or more of the voting power of the outstanding voting shares of a corporation. Generally, these provisions define combination to include any merger or consolidation with an interested stockholder, or any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions with an interested stockholder of assets of the corporation having:

- an aggregate market value equal to 5% or more of the aggregate market value of the assets of the corporation;
- an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation; or
- representing 10% or more of the earning power or net income of the corporation.

Articles of Incorporation and Bylaws

There are no provisions in our articles of incorporation or our bylaws that would delay, defer or prevent a change in control of our company and that would operate only with respect to an extraordinary corporate transaction involving our company, such as merger, reorganization, tender offer, sale or transfer of substantially all of its assets, or liquidation.

Description of Debt Securities

The following describes the general terms and provisions of the debt securities we may offer. When we offer to sell particular debt securities, we will describe the specific terms of any debt securities offered from time to time in a supplement to this prospectus, which may supplement or change the terms outlined below.

We may issue secured or unsecured and senior or subordinated debt securities. Particular debt securities may have different terms. The senior debt securities will be issued under one or more senior indentures, dated as of a date prior to such issuance, between us and a trustee to be named in a prospectus supplement, as amended or supplemented from time to time. Any subordinated debt securities will be issued under one or more subordinated indentures, dated as of a date prior to such issuance, between us and a trustee to be named in a prospectus supplement, as amended or supplemented from time to time. The indentures will be subject to and governed by the United States Trust Indenture Act of 1939.

Before we issue any debt securities, the form of indentures will be filed with the SEC and incorporated by reference as an exhibit to the registration statement of which this prospectus is a part or as an exhibit to a current report on Form 8-K. For the complete terms of the debt securities, you should refer to the applicable prospectus supplement and the form of indentures for those particular debt securities. We encourage you to read the applicable prospectus supplement and the form of indenture for those particular debt securities before you purchase any of our debt securities.

If we offer debt securities, we will describe the specific terms of the debt securities in a prospectus supplement, including:

- the title of the debt securities;
 - the aggregate principal amount of the debt securities, the percentage of the principal amount at which the debt securities will be issued and the date or dates when the principal of the debt securities will be payable or how those dates will be determined;
 - whether the amount of payments of principal of, or premium, if any, or interest on, the debt securities will be determined with reference to an index, formula or other method, which could be based on one or more commodities, equity indices or other indices, and how these amounts will be determined;
 - provisions with respect to the subordination of the rights of holders of the debt securities to other security holders or creditors;
 - whether such debt securities will be convertible into or exchangeable for any other securities and, if so, the terms and conditions upon which such debt securities will be so convertible or exchangeable and any applicable limitations on ownership or transferability of such other securities received on conversion;
 - the person to whom any interest in a debt security will be payable, if other than the registered holder at the close of business on the regular record date;
 - the interest rate or rates, which may be fixed or variable, that the debt securities will bear, if any, and how the rate or rates will be determined;
 - the date or dates from which any interest will accrue or how the date or dates will be determined, the date or dates on which any interest will be payable, any regular record dates for these payments or how these dates will be determined and the basis on which any interest will be calculated, if other than on the basis of a 360-day year of twelve 30-day months;
 - the place or places of payment, transfer, conversion and exchange of the debt securities and where notices or demands to or upon us in respect of the debt securities may be served;
 - any provisions granting special rights to the holders of the debt securities upon the occurrence of specified events, including but not limited to any make-whole amount, which is the amount in addition to principal and interest that is required to be paid to the holder of a debt security as a result of any optional redemption or accelerated payments of such debt security, or the method for determining the make-whole amount;
 - any optional redemption provisions;
 - provisions relating to subsidiary guarantees, if any;
 - any sinking fund or other provisions that would obligate us to repurchase or redeem the debt securities;
 - any changes or additions to the events of default under the applicable indenture or our covenants, including additions of any restrictive covenants, with respect to the debt securities;
 - any changes or additions to the provisions concerning defeasance and covenant defeasance contained in the indentures that will be applicable to the debt securities;
 - if other than the trustee, the name of any paying agent, security registrar and transfer agent for the debt securities;
 - if the debt securities are not to be issued in book-entry form only and held by The Depository Trust Company, or DTC, as depository, the form of such debt securities, including whether such debt securities are to be issuable in permanent or temporary global form, as registered securities, bearer securities or both, any restrictions on the offer, sale or delivery of bearer securities and the terms, if any, upon which bearer securities may be exchanged for registered securities and vice versa, if permitted by applicable law and regulations;
-

- the currency or currencies of such debt securities;
- the denomination or denominations that the debt securities will be issued, if other than denominations of \$1,000 or any integral multiples in the case of the registered securities and \$5,000 or any integral multiples in the case of the bearer securities;
- whether and under what circumstances we will pay additional amounts to holders in respect of any tax assessment or government charge, and, if so, whether we will have the option to redeem the debt securities rather than pay such additional amounts; and
- the name of the trustee and the nature of any material relationship with us or any of our affiliates, and the percentage of debt securities of the class necessary to require the trustee to take action.

Description of Warrants

The following describes the general terms and provisions of the warrants that we may offer. When we offer to sell particular warrants, we will describe the specific terms of any warrants offered from time to time in a supplement to this prospectus, which may supplement or change the terms outlined below.

We may issue warrants for the purchase of common stock, preferred stock, debt securities, additional warrants, units or any combination thereof. We may issue warrants independently or together with common stock, preferred stock, debt securities or units and the warrants may be attached to or separate from these securities. We will evidence warrants by warrant certificates that we may issue under a separate agreement. We may enter into the warrant agreement with a warrant agent. We will indicate the name and address of any such warrant agent in the applicable prospectus supplement relating to particular warrants.

Before we issue any warrants, the forms of warrant agreement, if any, and warrant certificates will be filed with the SEC and incorporated by reference as exhibits to the registration statement of which this prospectus is a part or as exhibits to a current report on Form 8-K. For the complete terms of the warrants, you should refer to the applicable prospectus supplement and the forms of warrant agreement, if any, and warrant certificate for those particular warrants. We encourage you to read the applicable prospectus supplement and the forms of warrant agreement, if any, and warrant certificate for those particular warrants before you purchase any of our warrants.

If we offer warrants, we will describe the specific terms of the warrants in a prospectus supplement, including:

- the offering price and aggregate number of warrants offered;
 - the currency for which the warrants may be purchased;
 - if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security or each principal amount of such security;
 - if applicable, the date on and after which the warrants and the related securities will be separately transferable;
 - in the case of warrants to purchase debt securities, the principal amount of debt securities purchasable upon exercise of one warrant and the price at, and currency, in which, this principal amount of debt securities may be purchased upon such exercise;
 - in the case of warrants to purchase common stock, preferred stock, units or additional warrants, the number of shares of common stock, shares of preferred stock, units or additional warrants purchasable upon the exercise of one warrant and the price at which these securities may be purchased upon such exercise;
 - the effect of any merger, consolidation, sale or other disposition of our business on the warrants;
 - the terms of any rights to redeem or call the warrants;
 - any provisions for changes to or adjustments in the exercise price or number of securities issuable upon exercise of the warrants;
 - the dates on which the right to exercise the warrants will commence and expire;
 - the manner in which the warrant agreement, if any, and warrants may be modified;
 - the terms of the securities issuable upon exercise of the warrants; and
 - any other specific terms, preferences, rights or limitations of or restrictions on the warrants.
-

Description of Subscription Receipts

The following describes the general terms and provisions of the subscription receipts that we may offer. When we offer to sell particular subscription receipts, we will describe the specific terms of any subscription receipts offered from time to time in a supplement to this prospectus, which may supplement or change the terms outlined below.

We may issue subscription receipts, which will entitle holders to receive upon satisfaction of certain release conditions and for no additional consideration, common stock, preferred stock, warrants, debt securities or units or any combination thereof. We may issue subscription receipts independently or together with common stock, preferred stock, warrants, debt securities or units. We will evidence subscription receipts by subscription receipt certificates that we may issue under a separate agreement. We may enter into the subscription receipt agreement with a subscription receipt agent. We will indicate the name and address of any such subscription receipt agent in the applicable prospectus supplement relating to particular subscription receipts.

Before we issue any subscription receipts, the forms of subscription receipt agreement, if any, and subscription receipt certificates will be filed with the SEC and incorporated by reference as exhibits to the registration statement of which this prospectus is a part or as exhibits to a current report on Form 8-K. For the complete terms of the subscription receipts, you should refer to the applicable prospectus supplement and the forms of subscription receipt agreement, if any, and subscription receipt certificate for those particular subscription receipts. We encourage you to read the applicable prospectus supplement and the forms of subscription receipt agreement, if any, and subscription receipt certificate for those particular subscription receipts before you purchase any of our subscription receipts.

If we offer subscription receipts, we will describe the specific terms of the subscription receipts in a prospectus supplement, including:

- the offering price and aggregate number of subscription receipts offered;
- the currency for which the subscription receipts may be purchased;
- the designation and terms of the securities into which the subscription receipts are convertible;
- if applicable, the date on and after which the subscription receipts and the related securities will be separately transferable;
- in the case of subscription receipts to acquire debt securities, the principal amount of debt securities convertible upon conversion of one subscription receipt;
- in the case of subscription receipts to acquire common stock, preferred stock, warrants or units, the number of shares of common stock, shares of preferred stock, warrants, units or any combination thereof acquirable upon the conversion of one subscription receipt;
- the conditions that must be met in order for holders of subscription receipts to receive for no additional consideration common stock, preferred stock, debt securities, warrants or units, the number of shares of common stock, preferred stock, warrants or units or the amount of debt securities or any combination thereof;
- the effect of any merger, consolidation, sale or other disposition of our business on the subscription receipts;
- the terms of any rights to redeem or call the subscription receipts;
- any provisions for changes to or adjustments in the number of securities issuable upon conversion of the subscription receipts;
- the dates on which the right to convert the subscription receipts will commence and expire;
- the manner in which the subscription receipt agreement, if any, and subscription receipts may be modified;
- the terms of the securities issuable upon conversion of the subscription receipts; and
- any other specific terms, preferences, rights or limitations of or restrictions on the subscription receipts.

Description of Units

We may issue units consisting of one or more warrants, subscription receipts, debt securities, shares of common stock, shares of preferred stock, or any combination of such securities. When we offer to sell particular units, we will describe the specific terms of any units offered from time to time in a supplement to this prospectus, which may supplement or change the terms outlined below.

Before we issue any units, the form of agreement relating to units will be filed with the SEC and incorporated by reference as an exhibit to the registration statement of which this prospectus is a part or as an exhibit to a current report on Form 8-K. For the complete terms of the units, you should refer to the applicable prospectus supplement and the form of units for those particular units. We encourage you to read the applicable prospectus supplement and the form of units for those particular units before you purchase any of our units.

If we offer units, we will describe the specific terms of the units in a prospectus supplement, including:

- the terms of the units and of the warrants, subscription receipts, debt securities, common stock and preferred stock comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;
- a description of the terms of any agreement governing the units; and
- a description of the provisions for the payment, settlement, transfer or exchange of the units.

Plan of Distribution

General

We may offer and sell the securities described in this prospectus through underwriters, dealers or agents, or directly to one or more purchasers or through a combination of these methods. The applicable prospectus supplement will describe the terms of the offering of the securities, including, without limitation:

- the name or names of any underwriters, dealers or agents, if any;
- the purchase price of the securities and the proceeds we will receive from the sale;
- any underwriting discounts and other items constituting underwriters' compensation;
- any compensation to underwriters, dealers or agents in connection with the offering; and
- any securities exchange or market on which the securities may be listed.

We may distribute the securities from time to time in one or more transactions at:

- a fixed price or prices, which may be changed;
- market prices prevailing at the time of sale;
- varying prices determined at the time of sale related to such prevailing market prices; or
- other negotiated prices.

Underwriters, dealers or agents, if any, may be customers of, engage in transactions with, or perform services for, us in the ordinary course of business. If material, we will describe in the prospectus supplement the nature of any such relationship and the name of the parties involved.

Only underwriters named in the prospectus supplement will be underwriters of the securities offered by the prospectus supplement.

By Underwriters

If we use underwriters in the sale of the securities, they may acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. We may agree to pay the underwriters a fee or commission for various services relating to the offering of the securities.

By Dealers

If we use a dealer in the sale of the securities, we may sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may change from time to time.

By Agents

We may sell the securities directly or through agents we designate from time to time.

Direct Sales

We may sell the securities directly at such prices and upon such terms as agreed to by us and the purchaser. In this case, no underwriters, dealers or agents would be involved in the offering.

Compensation of Underwriters, Dealers or Agents

In connection with the sale of the securities, underwriters, dealers or agents may receive compensation from us or from purchasers of the securities for whom they act as agents in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities, and any institutional investors or others that purchase securities directly and then resell the securities, may be deemed to be underwriters, and any discounts or commissions received by them from us and any profit on the resale of the securities by them may be deemed to be underwriting discounts and commissions under the United States Securities Act of 1933.

Delayed Delivery Contracts

We may authorize agents or underwriters to solicit offers by institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

Stabilization and Other Transactions

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sell to them. In these circumstances, these persons would cover such over-allotments or short positions by exercising their over-allotment option, if any, or making purchases in the open market. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

Derivative Transactions and Hedging

We, the underwriters or other agents may engage in derivative transactions involving the securities. These derivatives may consist of short sale transactions and other hedging activities. The underwriters or agents may acquire a long or short position in the securities, hold or resell the securities acquired and purchase options or futures on the securities and other derivative instruments with returns linked to or related to changes in the price of the securities. In order to facilitate these derivative transactions, we may enter into security lending or repurchase agreements with the underwriters or agents. The underwriters or agents may effect the derivative transactions through sales of the securities to the public, including short sales, or by lending the securities in order to facilitate short sale transactions by others. The underwriters or agents may also use the securities purchased or borrowed from us or others (or, in the case of derivatives, securities received from us in settlement of those derivatives) to directly or indirectly settle sales of the securities or close out any related open borrowings of the securities.

Indemnification

Underwriters, dealers or agents who participate in the distribution of securities may be entitled under agreements to be entered into with us to indemnification by us against certain liabilities, including liabilities under Canadian and United States securities laws, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof.

Experts and Counsel

Our consolidated financial statements for the years ended March 31, 2018 and 2017 have been incorporated by reference in this prospectus from our annual report on Form 10-K for the year ended March 31, 2018 filed with the Securities and Exchange Commission on June 29, 2018 in reliance on the report of AMC Auditing, LLC, an independent registered public accounting firm, which has also been incorporated by reference in this prospectus, given on the authority of said firm as experts in auditing and accounting.

The validity of the securities offered will be passed upon for us by Clark Wilson LLP. If the securities are being distributed through any underwriters, dealers or agents, certain legal matters may be passed upon for them by counsel identified in the applicable prospectus supplement.

Interest of Named Experts and Counsel

No expert named in the registration statement of which this prospectus forms a part as having prepared or certified any part thereof (or is named as having prepared or certified a report or valuation for use in connection with such registration statement) or counsel named in this prospectus as having given an opinion upon the validity of the securities being offered pursuant to this prospectus or upon other legal matters in connection with the registration or offering such securities was employed for such purpose on a contingency basis. Also at the time of such preparation, certification or opinion or at any time thereafter, through the date of effectiveness of such registration statement or that part of such registration statement to which such preparation, certification or opinion relates, no such person had, or is to receive, in connection with the offering, a substantial interest, direct or indirect, in our company or any of its parents or subsidiaries. Nor was any such person connected with our company or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer or employee.

Incorporation of Certain Information by Reference

The following documents filed by our company with the Securities and Exchange Commission are incorporated into this prospectus by reference:

1. our annual report on Form 10-K filed on June 29, 2018;
2. our quarterly reports on Form 10-Q filed on August 14, 2018, November 13, 2018 and February 14, 2019;
3. our current reports on Form 8-K filed on April 25, 2018, May 31, 2018, June 20, 2018, September 20, 2018, October 3, 2018, October 15, 2018, November 21, 2018 and January 29, 2019 (except, with respect to each of the foregoing, for the portions of such reports which were deemed to be furnished and not filed); and
4. the description of our common stock contained in our Form 8-A filed on December 4, 2018, which refers to the description of our securities contained in the post-effective amendment no. 2 to our registration statement on Form S-1 (File No. 333-209124) filed on November 24, 2017, including any amendments or reports filed for the purpose of updating such description.

In addition to the foregoing, we incorporate by reference all documents that we file with the Securities and Exchange Commission under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 (other than any documents or information furnished and not filed with the Securities and Exchange Commission) until we file a post-effective amendment that indicates the termination of the offering of the securities covered by this prospectus and such documents will become a part of this prospectus from the date that such documents are filed with the Securities and Exchange Commission. Information in such future filings updates and supplements the information provided in this prospectus. Any statements in any such future filings will automatically be deemed to modify and supersede any information in any document we previously filed with the Securities and Exchange Commission that is incorporated or deemed to be incorporated herein by reference to the extent that statements in the later filed document modify or replace such earlier statements.

We will provide to each person, including any beneficial owner, to whom this prospectus is delivered, at no cost, upon written or oral request, a copy of any or all of the information that has been incorporated by reference in this prospectus but not delivered with this prospectus. Requests for documents should be directed to The Alkaline Water Company Inc., 14646 N. Kierland Blvd., Suite 255, Scottsdale, Arizona 85254, Attention: President, telephone number (480) 656-2423. Exhibits to these filings will not be sent unless those exhibits have been specifically incorporated by reference in such filings.

Where You Can Find More Information

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission. Such filings are available to the public over the internet at the Securities and Exchange Commission's website at <http://www.sec.gov>.

We have filed with the Securities and Exchange Commission a registration statement on Form S-3 under the Securities Act of 1933 with respect to the securities offered under this prospectus. This prospectus, which forms a part of that registration statement, does not contain all information included in the registration statement. Certain information is omitted and you should refer to the registration statement and its exhibits.
